Net Contents: 2.5 gal. / 9.5 L  
Net Weight: 26.5 lbs. / 12.0 kg

## MIX WELL BEFORE USING

EnviroLagoon is intended for use to aid in degrading solids, reducing odors and enhancing the handling of most animal wastes stored in lagoon and/or pit systems.

**Directions For Use:** EnviroLagoon is heavier than water and will act where lagoon solids accumulate. Apply the product at least once per week at the recommended weekly rates shown below. During the first four weeks of use, a shock treatment is highly recommended. Apply this shock treatment to the primary lagoon, then when the primary lagoon is clean or at an acceptable status, maintenance applications may be introduced upstream (i.e. before flush systems or sand / solids reclamation systems). Consult with your Solutions 4Earth representative before changing application method.

	Weeks 1-2	Weeks 3-4	Weeks 5+
1000 Head Mature Dairy Cows	24 to 30 gallons/week	16 to 20 gallons/week	8 to 10 gallons/week
1000 Head Cattle Feed Lot	9 to 24 gallons/week	6 to 16 gallons/week	3 to 8 gallons/week
1000 Head Swine	9 to 15 gallons/week	6 to 10 gallons/week	3 to 5 gallons/week

\* The above are general recommendations. Feed Lot application rates depend on Feed Lot configuration and manure loading rate; consult with your Solutions 4Earth Representative for specific advice.

EnviroLagoon may be used in concert with anaerobic digestion systems. The product may be introduced into manure before the digestion system to aid in solids removal and/or flowability. EnviroLagoon is recommended to be added two times per week, splitting the weekly rate. In addition or separately, EnviroLagoon may be added after the anaerobic digestion system to treat waste entering the lagoon or flush system.

## LIMITED WARRANTY

**Danger.**  
Harmful if swallowed.  
Causes severe skin burns and eye damage.

## PRECAUTIONARY STATEMENTS

### Prevention

- Wash face, hands and any exposed skin thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear protective gloves and clothing, as well as eye/face protection.
- Do not breathe dust/fume/gas/mist/vapors/spray.
- Do not handle until all safety precautions have been read and understood.

### General Advice

- Immediately call a poison control center or doctor.
- See below for specific treatment.

### Eyes

- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

### Skin

- IF ON SKIN (or hair): Immediately remove all contaminated clothing. Rinse skin with water/shower.
- Wash contaminated clothing before reuse.

### Inhalation

- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

### Ingestion

- IF SWALLOWED: Call a poison control center or doctor if you feel unwell.
- Rinse mouth.
- Do NOT induce vomiting.

### Storage and Disposal

- Store locked up in original, labeled container and keep sealed.
- Do not store in direct sunlight for extended periods or allow to freeze.
- Dispose of contents/container to an approved waste disposal facility.

### Emergency Contact Telephone Numbers

- 24 hours within USA / Canada: Chemtrec 1-800-424-9300
- 24 hours international: 1-703-527-3887
- Solutions 4Earth: 8 a.m. to 5 p.m. Pacific Time at 702-315-5121
