

# ENVIRO<sup>®</sup> TREE

## 5-4-4 plus 3% Sulfur GUARANTEED ANALYSIS

Total Nitrogen (N).....	5.0%
5.0% Urea Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....	4.0%
Soluble Potash (K <sub>2</sub> O).....	4.0%
Sulfur (S).....	3.0%
3.0% Combined Sulfur (S)	
Derived from urea, phosphoric acid, potassium hydroxide and sulfuric acid.	
Density: 10.36 lbs./gal. at 68° F

 **Net Contents: 2.5 gal. / 9.5 L**  
**Net Weight: 25.9 lbs. / 11.8 kg**

## MIX WELL BEFORE USING

**Directions For Use:** EnviroTree may be applied as a soil drench or soil injection, as well as to tree foilage during planting or after a tree is established.

**Planting & Plant Installment:** Water thoroughly with one fluid ounce of EnviroTree per one gallon of water. Do not overapply, particularly to dwarf plants and conifers.

### Soil Application:

- **Broadcast:** Apply 24 to 48 fluid ounces of EnviroTree in 25 to 50 gallons of water per 100 square feet of a band beneath the tree's drip line, starting three feet from the trunk for young trees and up to 12 feet for older, more established trees, and extending out to just beyond the drip line. If turf or other desired plants are beneath the trees, water after application to move product deeper into the soil.
- **Soil injection:** Inject 24 to 48 fluid ounces of EnviroTree in 25 to 50 gallons of water per 100 square feet into the soil and about every three feet in the targeted application band described above.

**Foliar Application:** Mix two to five fluid ounces of EnviroTree per one gallon of water and spray on the foliage to correct chlorosis (foliar yellowing) or other nutrient deficiencies. Use the lower rate with multiple applications for sensitive plants. Spray foliage thoroughly. Apply early in the day, if possible, and do not apply during hot, sunny or dry conditions. Assure plants are well watered and not stressed. For corrective situations, spray trunk and surrounding soil as well.

**Danger. Harmful if swallowed.**  
**Causes severe skin burns and eye damage.**  
**May damage fertility or the unborn child.**

### PRECAUTIONARY STATEMENTS

#### Prevention

- Wash face, hands and any exposed skin thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear eye/face protection.
- Do not breathe dust/fume/gas/mist/vapors/spray.
- Do not handle until all safety precautions have been read and understood.
- Use personal protective equipment as required.

#### General Advice

- Immediately call a poison control center or doctor.
- See below for specific treatment.

#### Eyes

- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

#### Skin

- IF ON SKIN (or hair): Immediately remove all contaminated clothing. Rinse skin with water/shower.
- Wash contaminated clothing before reuse.

#### Inhalation

- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

#### Ingestion

- IF SWALLOWED: Call a poison control center or doctor if you feel unwell.
- Rinse mouth.
- Do NOT induce vomiting.

#### Storage and Disposal

- Store locked up in original, labeled container and keep sealed.
- Do not store in direct sunlight for extended periods or allow to freeze.
- Dispose of contents/container to an approved waste disposal facility.

#### Emergency Contact Telephone Numbers

- 24 hours within USA / Canada: Chemtrec 1-800-424-9300
- 24 hours international: 1-703-527-3887
- Solutions 4Earth: 8 a.m. to 5 p.m. Pacific Time at 702-315-5121
