Net Weight: 25.9 lbs. / 11.8 kg

MIX WELL BEFORE USING

EnviroYard feeds herbaceous garden plants, shrubs, trees, cactus, succulents and turf.

Directions For Use: Shake well before use as some settling may occur. Use when establishing new turf/lawns or on established turf where a soil test proves a need for phosphorus. In either case, apply only when turf is actively growing. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. Check with your county or city government to determine if there are local regulations for fertilizer use. In Virginia, this lawn/turf fertilizer contains phosphorus and is only for non-agricultural use on (i) turf during its first growing season, (ii) on turf areas being repaired or renovated and (iii) on turf where a soil test performed within the last 3 years indicates a phosphorus deficiency. This fertilizer is not for the routine maintenance of turf.

Lawn Applications Using Yard Feeder®: EnviroYard is recommended for use with the Yard Feeder fertigation system, which meters out approximately one-half fluid ounce of EnviroYard per gallon of irrigation water. Pour EnviroYard directly into the Yard Feeder tank, as instructed by the fertilizer system. Do not dilute.

Lawn Applications NOT Using YardFeeder®: Apply 24 fluid ounces of EnviroYard diluted with at least two gallons of water for every 1,000 square feet four to six times a year during the growing season.

Garden Plants, Flowers, Shrubs and Trees: Dilute one-half to one fluid ounce in one to two gallons of water and apply to the soil around the base of plants. Apply one-quarter to one-half gallon of fertilizer mixture for every square foot of area. Applications can be made every 10-14 days. Use the lower rate for consistently repeated applications.

Danger. Harmful if swallowed.
Causes severe skin burns and eye damage.
May damage fertility or the unborn child.

PRECAUTIONARY STATEMENTS

Prevention

- Wash face, hands and any exposed skin thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear eye/face protection.
- Do not breathe dust/fume/gas/mist/vapors/spray.
- Do not handle until all safety precautions have been read and understood.
- Use personal protective equipment as required.

General Advice

- Immediately call a poison control center or doctor.
- See below for specific treatment.

Eyes

- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Skin

- IF ON SKIN (or hair): Immediately remove all contaminated clothing. Rinse skin with water/shower.
- Wash contaminated clothing before reuse.

Inhalation

- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Ingestion

- IF SWALLOWED: Call a poison control center or doctor if you feel unwell.
- Rinse mouth.
- Do NOT induce vomiting.

Storage and Disposal

- Store locked up in original, labeled container and keep sealed.
- Do not store in direct sunlight for extended periods or allow to freeze.
- Dispose of contents/container to an approved waste disposal facility.
