

FIFRA Sec. 2(ee) Recommendation

Technical Information Bulletin for using a reduced rate of Headline to control citrus black spot (*Guignardia citricarpa*) in Florida

This Technical Information Bulletin expires on December 31, 2019.

EPA Reg. No. 7969-186

This recommendation is made as permitted under FIFRA section 2(ee) and has not been submitted to or approved by the EPA.

All applicable directions, restrictions, precautions and Conditions of Sale and Warranty on the EPA registered label are to be followed. Refer to the container label for additional instructions. Always read and follow label directions.

Information contained in this Technical Information Bulletin is not intended to replace or amend any product labeling. Always read and follow all label directions when using any pesticide alone or in tank mix combinations.

The user must have this recommendation in their possession at the time of use.

Directions For Use

Headline can be used at a rate as low as 9 fl ozs per acre to control citrus black spot. Follow all use directions under the citrus fruit section of the **Headline** container label.

Headline is a registered trademark of BASF.
