vinegar by titration

First Aid

If in Eyes

Hold eyelids open and flush
with a steady, gentle stream of
water for 15-20 min. Remove
contact lenses, if present,
after first 5 min., then continue
rinsing eye.

If on Skin or Clothing

Take off contaminated
clothing. Rinse skin
immediately with plenty of
water for 15-20 min. Call
poison control center or
doctor for further treatment

If Swallowed

Call poison control center or
doctor immediately for
treatment advice. Have
person sip a glass of water if
able to swallow. Do not induce

First Aid cont.

vomiting unless told to do so
by poison control center or
doctor. Do not give anything
by mouth to an unconscious
person.

If Inhaled

Move person to fresh air. If
person is not breathing, call
911 or an ambulance, then
give artificial respiration,
preferably mouth-to-mouth, if
possible. Call poison control
center or doctor for further

NOTE TO PHYSICIAN:

Probable mucosal damage
may contra-indicate the use of
gastric lavage.

Have product container or
label with you when calling
poison control center or
doctor, or going for treatment.
You may also contact 1-800-
858-7378 for emergency
medical treatment.

See label inside panel for
additional precautionary
statements.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals:

DANGER: Corrosive - causes irreversible eye damage. Wear goggles or face shield when handling. Harmful if absorbed through skin. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash thoroughly with soap and water after handling. Wear personal protection equipment when handling and/or applying.

PERSONAL PROTECTION EQUIPMENT (PPE): Applicators and other handlers must wear appropriate protective eyewear, such as or face shield or goggles and face mask (with MSHA/NIOSH approval number prefix such as N-95, R-95, or P-95), long sleeved shirt and long pants, waterproof gloves and shoes plus socks.

USER SAFETY REQUIREMENTS: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist for PPE, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS: Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash water or rinsate. Do not apply to roosting or nesting birds, or to flowering plants during times of day when bees are actively foraging.

OTHER PRECAUTIONS: Avoid application to reactive metals such as aluminum, tin, iron or items such as fencing or lawn furniture in order to prevent staining, mottling, or otherwise interfering with finished metal surfaces. In case of contact, rinse the sprayed surfaces with water.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the State or Tribal agency responsible for pesticide regulation. Keep unprotected persons out of treated area until spray residues have dried.

WEED PHARM is a fast-acting, non-selective contact killer containing an organic acid that is non-residual in soil. Foliar contact results in rapid desiccation and control of annual weeds and grasses, and top growth reduction of herbaceous perennial weeds and grasses (see tables below). Re treatment may be required for control of established perennial weeds. PROTECT ORNAMENTALS FROM SPRAY DRIFT.

EARLY SEASON ANNUAL WEED CONTROL: Apply undiluted product when weeds are small (3 to 5 leaf stage) and actively growing.

Spray Weed Pharm on unwanted vegetation to point of wetness. For best results spray in full sunshine at temperatures above 50 degrees Fahrenheit. Dilution of product will reduce effectiveness. Avoid spraying landscape plants, ornamentals and other desirable foliage.

TYPICAL WEEDS CONTROLLED - ANNUAL BROADLEAF WEEDS: Black Medic, Chickweed, Cinquefoil (rough), Common groundsel, Hairy Nightshade, Lamb's Quarters, Mustard spp., Oxalis spp., Pigweed spp., Ragweed spp., Shepards Purse, Smart Weed (Lady's Thumb), Velvet Leaf

TYPICAL WEEDS CONTROLLED (Continued) - PERENNIAL BROADLEAF WEEDS: Cinquefoil (silvery), Dandelion, Ground Ivy, Plantain spp., Toadflax, Tufted Vetch, Wild Carrot. **ANNUAL GRASSES:** Crabgrass, Foxtail spp, Italian Ryegrass, Poa annua. **PERENNIAL GRASSES:** Bluegrass, Quackgrass, Witches Grass

WEED PHARM WEED & GRASS KILLER is a food-grade, 20.0% Acetic Acid labeled for use as a horticultural vinegar for residential and non-agricultural uses at all sites indicated below!

Recommended for the control of herbaceous broadleaf and grassy weeds and unwanted grasses around buildings, storage areas, fence rows and driveways; in home lawns and landscaped areas, private association ornamental gardens, golf courses, school play fields, municipal, state and federal parks and recreation areas, non-cropland driveways, patios, sidewalks and bike/hike trails, kennels, dog runs, and other animal enclosures;

Interstate Freeways/Highways, Federal and State Highways and City/County roads and walk ways, railroad rights-of-way, tank farms, power stations and easements, and other rights-of way, industrial sites, and vacant lots.

Suitable to keep down weeds on all botanical and private association ornamental gardens, kennels, dog runs, and other animal enclosures and on Interstate Freeways/Highways, Federal and State Highways and City/County roads and walk ways.

FOR SPOT TREATMENT: Direct spray to thoroughly wet undesirable weed foliage. Re-treatment of perennial weed growth may be required for control.

FOR CONTROL OF LARGER ANNUALS AND BURN DOWN OF PERENNIAL WEED GROWTH: Larger annual weeds and perennials are more difficult to control and may require re treatment. Treat initially as recommended above and repeat if new growth of leaves appears. Thorough coverage of all weed foliage is necessary to achieve desirable control.

TIMING OF APPLICATIONS: Best results are achieved from applications to actively growing young weeds. Weeds that are mature, dormant or hardened due to moisture stress are more tolerant of herbicide treatments. For best results spray in full sunshine at temperatures above 50°F. Only contacted vegetation will be affected.

DO NOT APPLY THIS PRODUCT THROUGH ANY TYPE OF IRRIGATION SYSTEM.

NOTE: ALL CONTACTED VEGETATION WILL BE AFFECTED. AVOID CONTACT WITH DESIRABLE PLANTS. OVER SPRAY OR DRIFT WILL INJURE OR KILL CONTACTED VEGETATION.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Keep from freezing. Store only in original tightly sealed container and out of reach of children

If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY STATEMENT: To the extent required by law, Pharm Solutions Inc. warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label only when used in accordance with the label directions. Pharm Solutions Inc. makes no other express or implied warranties either of merchantability or fitness for a particular use and shall not be liable for misuse or conditions beyond its control, such as handling or storage.
