# Moly-ZPhos

## 0-25\*-0

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>.

Helping Nature Work<sup>SM</sup>

\*Phosphorous Acid products are for use as a supplemental fertilizer treatment. Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or be used directly by plants, as phosphite ions. As a soil application to annual crops, a lesser response from the initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or root zones may be injurious to crops. This effect may be aggravated by a soil pH below 6.5.

### Directions for Commercial Use:

Moly-ZPhos is intended for foliar use. Foliar: Apply 1 to 2 quarts per acre (2.5 to 5 liters per hectare) with sufficient water for thorough coverage. Product can be applied at 7 to 14 day intervals for a maximum of 5 times during the growing season. If a spreader/sticker is needed, pre-mix Moly-ZPhos with SprayTech Oil at a rate of 1 pint/acre (1 liter per hectare). Spray in early morning or late afternoon. Do not apply during the "sunlight" hours when air temperature is above 85° F/30° C. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product. Moly-ZPhos is compatible with many fertilizers and pesticides, but a compatibility check is recommended. Do not mix Moly-ZPhos with nicotoid based insecticides or other products that require an alkaline solution.

### Guaranteed Analysis:

Total Phosphoric Acid (P<sub>2</sub>O<sub>5</sub>) 25%\*  
Molybdenum (Mo) 0.4%  
Zinc (Zn) 7.5%

### Derived from

Zinc Carbonate, Phosphorous Acid and Ammonium Molybdate

### Warranty

- 1.-The manufacturer guarantees and warrants that the content and the total net weight are as stated within lawful limits.
- 2.-Liability of Agro-K Corporation under this warranty or otherwise shall be limited to refund of the purchase price and such refund is expressly agreed by the buyer to be the exclusive remedy.

**Agro-K Corporation makes no other expressed or implied guarantee, warranty or representation, including warranties of merchantability and fitness for a purpose. Agro-K Corporation shall not be liable for direct consequential or incidental damages.** No modifications of this warranty and the disclaimers herein are authorized or valid unless expressed in writing and signed by Agro-K Corporation.

### SHAKE WELL BEFORE USE

### KEEP OUT OF REACH OF CHILDREN WARNING

The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.
