Helping Nature WorkSM

OrCa D.L. is designed for foliar use on all crops to correct calcium deficiencies. Proper nutrient management will help maximize crop quality and yield. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops.

Directions for Commercial Use:

Foliar: Apply 1 to 4 quarts per acre with sufficient water for thorough coverage. For best results spray in early morning or late afternoon. Do not apply during the "sunlight" hours when air temperature is above 85°F. Do not apply to fruiting crops between bloom and 6 weeks after petal fall, under cold or slow drying conditions.

Mixing: If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product. OrCa D.L. may be mixed with most fertilizers, insecticides and/or fungicides. A compatibility check is recommended. Check with your field representative for specific recommendations.

Net Wgt. 25 lbs. /2.5 gal

Guaranteed Analysis:

Calcium (Ca) 7.0%

Derived from
Mined Calcium Carbonate and Calcium Chloride

Warranty

- 1.-The manufacturer guarantees and warrants that the content and the total net weight are as stated within lawful limits.
- 2.-Liability of Agro-K Corporation under this warranty or otherwise shall be limited to refund of the purchase price and such refund is expressly agreed by the buyer to be the exclusive remedy.
