Helping Nature WorkSM

Directions for Commercial Use:

Sysstem-CAL is intended for foliar use. Foliar: Apply 1 to 4 quarts per acre (2.5 to 10 liters per hectare) with sufficient water for thorough coverage. Product can be applied at 7 to 14 day intervals for a maximum of 8 times during the growing season. Avoid applications when temperatures are extreme (above 90°F/32°C). Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product.

WARNING - Sysstem-CAL is compatible with many fertilizers and pesticides but a compatibility check is recommended. Always ensure adequate dilution in the spray tank before adding Sysstem-CAL to any mixture. Never mix Sysstem-CAL in a concentrated form with other fertilizers or pesticides. Do not mix Sysstem-CAL with pesticides that are sensitive to low pH solutions, including copper based products.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS –
12% PHOSPHOROUS ACID

Guaranteed Analysis:

Calcium (Ca) 4.0%
Copper (Cu) 0.25%
