Sysstem™ -Moly-Z

Information regarding the contents
and levels of metals in this product
is available on the internet at
<http://www.aapfco.org/metals.htm>.

Helping Nature WorkSM

Directions for Commercial Use:

Sysstem-Moly-Z is intended for foliar use. Foliar: Apply 1 to 2 quarts per acre (2.5 to 5 liters per hectare) with sufficient water for thorough coverage. Product can be applied at 7 to 14 day intervals for a maximum of 5 times during the growing season. If a spreader/sticker is needed, pre-mix Sysstem-Moly-Z with SprayTech Oil at a rate of 1 pint/acre (1 liter per hectare). Spray in early morning or late afternoon. Do not apply during the "sunlight" hours when air temperature is above 85° F/30° C. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product. Sysstem-Moly-Z is compatible with many fertilizers and pesticides, but a compatibility check is recommended. Do not mix Sysstem-Moly-Z with nicotoid based insecticides or other products that require an alkaline solution.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS -
25% PHOSPHOROUS ACID

Guaranteed Analysis:
Molybdenum (Mo) 0.4%
Zinc (Zn) 7.5%

No modifications of this warranty and the disclaimers herein are authorized or valid unless expressed in writing and signed by Agro-K Corporation.

SHAKE WELL BEFORE USE

**KEEP OUT OF REACH OF CHILDREN
WARNING**

The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.
