Helping Nature WorkSM

Directions for Commercial Use:

Sysstem-Ready™ is intended for foliar use. Foliar: Apply 1 to 8 pints per acre (2.5 to 8 liters per hectare) with sufficient water for thorough coverage. Sysstem-Ready™ is designed to supply zinc and manganese to developing plants. Sysstem-Ready™ can be applied at anytime during the growing season at 7-14 day intervals for a maximum of 5 times during the growing season. Applications are most effective when applied early in the growing season when plant demand for zinc and manganese is highest. Recommended timings begin at the 3-4 leaf stage and continue through early bloom depending on the crop. Sysstem-Ready™ is compatible with glyphosate and most pesticides and can be applied together.

WARNING - Sysstem-Ready™ is compatible with many fertilizers and pesticides but a compatibility check is recommended. Always ensure adequate dilution in the spray tank before adding Sysstem-Ready™ to any mixture. Never mix Sysstem-Ready™ in a concentrated form with other fertilizers or pesticides. Do not mix Sysstem-Ready™ with pesticides that are sensitive to low pH solutions, including copper based products. Do not apply to fruiting crops between bloom and 6 weeks after petal fall, under cold or slow drying conditions.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS -
35% PHOSPHOROUS ACID

Guaranteed Analysis:

Manganese (Mn) 2.75%
Zinc (Zn) 4.25%

Derived from
Manganese Carbonate and Zinc Carbonate
