

Cherry Cracking Suppressant

RainGard™ is applied as a protective film on cherries to decrease uptake of rain water by the fruit. **RainGard** helps maintain cuticle integrity throughout the final stages of fruit growth, thus reducing cracking susceptibility.

CAUTION

Keep Out Of Reach Of Children

This product is a mild irritant. Eye contact will cause minor irritation. Individuals sensitive to alkaline materials may develop dermatitis upon prolonged or repeated contact with product concentrate. If dust/mist residuals are present at or above the TLV, respiratory protection must be worn. Wear additional protective clothing as necessary to minimize contact with product.

FIRST AID

If in Eyes: Flush with large amounts of water, lifting upper and lower lids occasionally. Get medical attention if irritation persists.

If on Skin: Wash exposed areas thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If skin feels slippery, continue washing until slick feeling is gone. Contact a physician if irritation persists.

If Swallowed: Give large quantities of water. DO NOT induce vomiting. If vomiting occurs administer additional fluids. Contact a physician for further directions. Never give anything by mouth to an unconscious person.

If Inhaled: Remove individual to fresh air. If breathing is difficult, give oxygen. Contact a physician if irritation persists.

**PRODUCT MAY SETTLE DURING EXTENDED STORAGE;
AGITATE OR MIX THOROUGHLY BEFORE USE.
DO NOT STORE AT TEMPERATURES BELOW 45°F OR IN
DIRECT SUNLIGHT.**

RECOMMENDATIONS FOR USE

Mixing:

1. Fill clean spray tank with half of the required water. Always use clean water.
2. With the agitator running, slowly add **RainGard** to the tank. Use 102 ounces of **RainGard** for each 100 gallons of water to obtain a 0.8% V/V final solution, or mix one 6.4 gallon pail of RainGard with 800 gallons of water.
3. Add the remaining water to reach the desired dilution.

APPLICATIONS: For maximum efficacy, all cherries must be covered with **RainGard**. To ensure better coverage, the ground speed of the sprayer should not exceed 2 miles per hour during spraying. Apply 100 gallons per acre of finished spray by airblast or boom sprayer to the trees. If larger spray volumes are chosen, a 0.8% dilution must still be maintained.

When to apply:

Apply the first application of **RainGard** 4 weeks before estimated harvest date. Reapply **RainGard** at 7-10 day intervals. Application timing can be slightly modified according to weather forecast in order to anticipate rain events. Always use **RainGard** in a 3-weekly applications program. Single applications of **RainGard**, before a rain event, have been proven to be less effective in reducing rain cracking when

compared to the 3 weekly application program, and they are not recommended.

TANK MIXES: **RainGard** is usually compatible with commonly used agricultural products and can be tank mixed. Please contact your field representative for advice on mixing with specific products.

CLEAN-UP: Clean sprayer tank and nozzles immediately after use by adding clean water to the spray tank and spraying the water through the nozzles.

STORAGE & HANDLING

STORAGE: Store in a cool, dry place above 45°F but away from direct sunlight. Keep out of reach of children and livestock.

SPILLS: Only trained personnel equipped with proper protective gear should be permitted in the area. Stop spill at source. Reclaim material if possible for reuse. Containerize contaminated material for disposal. After all visible traces have been removed, flush area thoroughly with water.

PRODUCT & WASTE DISPOSAL: Dispose of all waste in accordance with local, state and federal regulations.

LIMITED WARRANTY, TERMS OF SALE, AND LIMITATION OF LIABILITY

Upon purchase or use of this product, purchaser and user agree to the following terms:

Warranty: Pace International, LLC (the Company) warrants that this product conforms to the chemical description on the label in all material respects. The Company makes no other representation or warranty, express or implied, concerning the product, including no implied warranty of merchantability or fitness for a particular purpose; no such warranty shall be implied by law, and no agent or representative is authorized to make any such warranty on the Company's behalf.

Terms of Sale: The Company's directions for use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, and the manner of use or application (including failure to adhere to label directions), all of which are beyond the Company's control. All such risks are assumed by the user. Sale of this product is governed by the internal laws of the state of Washington; any action with respect to this product shall be brought exclusively in the state or federal courts located at Seattle, Washington U.S.A.

Limitation of Liability: The exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for damages, and in no event shall damages or any other recovery of any kind exceed the price of the product which caused the alleged loss, damage, injury or other claim. Under no circumstances shall the Company be liable for any special, indirect, incidental or consequential damages of any kind, including loss of profits or income, and any such claims are hereby waived.

The Company and the seller offer this product, and the purchaser and user accept this product, subject to the foregoing warranty, terms of sale and limitation of liability, which may be varied or modified only by an agreement in writing signed on behalf of the Company by an authorized representative.
