

Xeda FC

POSTHARVEST

Phosphate Salts for Floatation of Fruit

For Agricultural Use Only

Ingredients: Phosphoric acid, potassium hydroxide, and proprietary ingredients.

HANDLING

Causes severe skin burns and eye damage. May be harmful in contact with skin. Avoid contact with eyes or prolonged contact with skin and clothing. Avoid breathing dust or mist from solutions. Do not take internally. Wear impermeable clothing, chemical resistant gloves, and goggles when mixing or using this product to protect eyes against possible splashing of material. Harmful if swallowed. Do not eat, drink, or smoke while using this product. Always wash hands thoroughly after handling.

SPILL OR LEAK

This product is harmful to aquatic life: Avoid release into the environment. Soak up liquid with sand, earth or other inert material and place into a suitable waste container.

STORAGE AND DISPOSAL

Store indoors in a cool, dry location. Keep container dry and closed when not in use. Do not use container as a dilution or mixing vessel. Keep closure up to prevent leakage. Containers must be completely drained and rinsed prior to reconditioning or disposal. Disposal of contents/container should be made in accordance with applicable national, regional, and local laws and regulations. Store in a locked location.

FIRST AID

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. IF ON SKIN (OR HAIR): Wash with plenty of soap and water. Immediately remove any contaminated clothing. If skin irritation or rash occurs: Get medical advice/attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF SWALLOWED: Call a POISON CENTER/doctor for medical advice. Call a POISON CENTER or doctor immediately if you feel unwell. Wash contaminated clothing before reuse.

RECOMMENDATIONS FOR USE

Xeda FC greatly increases the density of the water solution. This affects the solubility of chlorine in water, so very specific mixing practices should be followed to minimize off-qassing of chlorine.

Fresh Tank Mixing

When mixing a fresh tank, the components must be added in the following order: Water, Xeda FC, Sodium hypochlorite.

All circulating pumps should be operating during the addition of all components. The rate of dispersion depends on the mixing rate of the tank and the location of the introduction point. Whenever possible, Xeda FC and sodium hypochlorite should be introduced into areas of good circulation or agitation, such as the suction inlet of the circulating pump.

Sodium hypochlorite should be introduced gradually. Never pour sodium hypochlorite at a high rate directly from a bucket or other bulk container.

Use of a chemical metering pump is recommended over manual additions.

Sodium hypochlorite should be introduced below the water surface or injected into the water circulation system.

Chlorine degrades rapidly in a dump tank solution. If a tank will not be used until the following day, wait until that day to introduce sodium hypochlorite.

Adding additional Xeda FC to tank containing chlorine

The addition of Xeda FC will cause a sudden change in solution density. Therefore, it is important to take the following precautions:

Introduce Xeda FC when chlorine concentrations are at a low level.

Introduce Xeda FC into a deep part of the tank with strong circulation.

Introduce Xeda FC at a very slow rate (less than 4.0 gpm).

Mix Rates

Performance of this product is affected by time, temperature and chemical concentration. The following table provides samples dilution rates, but for best results consult a PACE technical representative for application information. Xeda FC Dilution Rates

Xeda FC (ml)	Water (ml)	Solution density (g/m
0.625	99	1.0060
1.25	98	1.0110
1.875	97	1.0160
2.5	96	1.0200
3.75	94	1.0300
5	92	1.0393
6.25	90	1.0488
7.5	88	1.0583
8.75	86	1.0678
10	84	1.0773

LIMITED WARRANTY, TERMS OF SALE, AND LIMITATION OF LIABILITY Upon purchase or use of this product, purchaser and user agree to the following

Warranty: Pace International, LLC (the Company) warrants that this product conforms to the chemical description on the label in all material respects and is reasonably fit for the purpose referred to in the directions for use, subject to the exceptions noted below, which are beyond the Company's control. The Company makes no other representation or warranty, express or implied, concerning the product, including no implied warranty of merchantability or fitness for a particular purpose; no such warranty shall be implied by law, and no agent or representative is authorized to make any such warranty on the Company's behalf.

Terms of Sale: The Company's directions for use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, and the manner of use or application (including failure to adhere to label directions), all of which are beyond the Company's control. All such risks are assumed by the user. Sale of this product is governed by the internal laws of the state of Washington; any action with respect to this product shall be brought exclusively in the state or federal courts located at Seattle, Washington U.S.A.

Limitation of Liability: The exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for damages, and in no event shall damages or any other recovery of any kind exceed the price of the product which caused the alleged loss, damage, injury or other claim. Under no circumstances shall the Company be liable for any special, indirect, incidental or consequential damages of any kind, including loss of profits or income, and any such claims are hereby waived.

The Company and the seller offer this product, and the purchaser and user accept this product, subject to the foregoing warranty, terms of sale and limitation of liability, which may be varied or modified only by an agreement in writing signed on behalf of the Company by an authorized representative.
