

BIO KELP PLUS™

PRODUCT INFORMATION

Revised 10-08-01

Bio Kelp Plus™ is a natural blend of sea plant extracts harvested from North Atlantic kelp. **Bio Kelp Plus** can be used in a general program to strengthen roots and produce vigorous turfgrass, trees and ornamentals.

PRECAUTIONARY STATEMENTS:

NOTICE: Before using this product read the entire Precautionary Statements, Disclaimer of Warranties, Directions for Use, Use Restrictions and Storage and Disposal instructions. If the Disclaimer of Warranties is not acceptable, return the product unopened within thirty days of purchase to the place of purchase.

CAUTION: Keep out of reach of children. IN CASE OF EMERGENCY OR SPILL, Contact Hazmat Response 1 (800) 229-5252.

FIRST AID MEASURES IN CASE OF CONTACT

Eye Contact – DO NOT RUB EYES. Immediately flush eyes with large amounts of water for 15 minutes lifting the lower and upper lids. Seek medical attention if necessary.

Skin Contact – Remove contaminated clothing and immediately wash affected area with large amounts of water for at least 5 minutes. If irritation or redness persists, seek medical attention as needed.

If Swallowed – Give large amounts of water to drink. Seek medical attention if necessary. Induce vomiting only upon advice from a physician.

Inhalation – Move individual to fresh air and check to assure adequate respiration. Seek medical attention if necessary.

STORAGE AND DISPOSAL:

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

STORAGE: Store in original container only and keep sealed. Store in closed storage area. Use caution when moving, closing or pouring. Do not store below 45°F (7°C). Some settling may occur. Shake container (as practical) before use.

PRODUCT DISPOSAL: Improper disposal of excess spray mixtures or rinsate is a violation of federal law. Wastes resulting from use of this product should be disposed of through on-site spray application or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or other procedures approved by state and local authorities.

LIMITED WARRANTY AND DISCLAIMERS: J. R. Simplot Company ("Seller") warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or any accompanying written recommendation are beyond the control of Seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. In no case is J. R. Simplot Company liable for consequential, special or indirect damages resulting from the use or handling of this product that is not in accordance with the directions. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at Buyer's option, as full discharge of Seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon Seller.

GUARANTEED ANALYSIS:

Available Phosphate (P ₂ O ₅).....	3.00%
Soluble Potash (K ₂ O).....	2.00%

Derived From: Sea plant extracts (Ascophyllum Nodosum).

Information received by the Washington Department of Agriculture regarding the components in this product is available on the internet at: <http://www.wa.gov/agr/>.

APPLICATION RECOMMENDATIONS:

Bio Kelp Plus can be applied throughout the growing season to cool, transitional and warm season grasses, trees and ornamentals. This product is intended to supplement a regular fertilization program. **Bio Kelp Plus** will not, by itself, provide all the nutrients normally required by plants.

GREENS/TEES/FAIRWAYS:

Apply 4fl.oz./1000ft² (120mL/93m²) to greens and tees each month throughout the growing season. Apply 2fl.oz./1000ft² (60mL/93m²) monthly to fairways. Make the first application of **Bio Kelp Plus** during the initial stages of growth. Frequent light applications are more effective than infrequent heavy applications.

TREES/SHRUBS:

Mix 64fl.oz. (2L) of **Bio Kelp Plus** in 100 gallons (375L) of water and apply 5 gallons (20L) of mix per inch (2.5cm) of trunk diameter at breast height. Tank mix should be injected in a circular grid pattern starting 1ft (30cm) from trunk and continuing 2ft (60cm) past the drip line.

ORNAMENTALS:

Mix 3fl.oz. (90mL) of **Bio Kelp Plus** in 4 gallons (15L) of water and spray to runoff.

COMPATIBILITY WITH OTHER MATERIALS:

Bio Kelp Plus is compatible with most technical materials. However, it is not compatible with materials containing liquid Calcium, Cadmium or with the fungicide Alliette. A jar-type test is recommended before tank mixing **Bio Kelp Plus** with any other spray materials. **Bio Kelp Plus** may increase the potency of certain herbicides. To ensure against adverse reactions when combining with other materials, mix a small test batch and apply first to a small representative area.

Not a Plant Food Ingredient
