

Che-Man 5%

GUARANTEED ANALYSIS: 2-0-0	BY WT.
Total Nitrogen (N)	2.0%
2.0% Water Soluble Nitrogen	
Manganese (Mn)	5.0%
5.0% Chelated Manganese	

Derived from Potassium Hydroxide, Manganese Ethylenediaminetetraacetate (EDTA).

Weight per gallon 9.92 lbs.

SHAKE WELL BEFORE USING

Warning: This product contains a chemical known to the State of California to cause cancer, birth defects or other reproductive harm. Proposition 65, the Safe Drinking Water and Toxic Enforcement Act of 1986, requires notification of potential exposure to substances identified by the State of California as causing cancer, birth defects or other reproductive harm.

CAUTION KEEP OUT OF REACH OF CHILDREN

GENERAL INFORMATION

CHE-MAN 5% chelated micronutrient is fully chelated and in a form readily available to plants. It is recommended for use as an additive in dry or liquid fertilizer. CHE-MAN 5% is also compatible with most pesticides. Use the standard jar test to determine compatibility. CHE-MAN 5% micronutrient is most effective when placed in the root zone during planting or moved into the soil by irrigation, tillage or rainfall. Soil application is the preferred method of application, although CHE-MAN 5% may also be used as a foliar spray. It is important to treat the manganese deficiency before visual symptoms appear to insure proper yields. Rates of application will vary depending upon the severity of the deficiency, climate, soil type, and method of application. Consult your State Agricultural Experiment Station or Extension Specialists for advice in selecting treatments from this label to best fit local conditions. Avoid applying this product when plants are suffering from moisture stress.

HOW TO APPLY

SOIL APPLICATION: CHE-MAN 5% micronutrient can be applied alone or in combination with dry or liquid fertilizer for preplant, starter or side dress applications. For most effective treatment of row crops, make soil application in a band at planting time or as a side dressing shortly after planting. **CAUTION:** DO NOT APPLY TO ORGANIC SOILS SUCH AS MUCK OR HIGH ORGANIC SANDS. Use foliar sprays on these soil types to correct manganese deficiencies.

FOLIAR APPLICATION: CHE-MAN 5%, when diluted with water according to label recommendations, can be applied as a foliar spray. Thorough coverage and use of wetting agents often enhance nutrient uptake from foliar sprays. After the correct dilution has been made, the spray solution should be buffered to a pH of 6-6.5. Foliar sprays of CHE-MAN 5% should not be considered a substitute for soil application but rather a supplement or temporary measure to correct the manganese deficiency. If label instructions are not followed for foliar application, phytotoxicity may occur.

DIRECTIONS FOR USE

FIELD AND VEGETABLE CROPS (including beans, corn, peas, potatoes, sorghum, sugar beets and tomatoes):

Soil: Apply 2-8 quarts per acre.

Foliar: Apply ½-1 quart per acre in a minimum of 25 gallons of water.

TREE AND VINE CROPS (including almond, apple, apricot, avocado, berry, cherry, citrus, grape, mango, olive, pear, peach, pistachio, plum and walnut):

Soil: Apply 2-10 quarts per acre. Spread material uniformly around the tree and vines and water in thoroughly for a rapid response.

Foliar: Apply ½ to 1 quart per acre in minimum of 25 gallons of water. For all crops except citrus, apply as a dormant spray before bloom, then again after full bloom. For smooth skin fruits (peach, pear, apple, etc.) use the lower rate in 50-100 gallons of water per acre. For citrus, apply anytime except during bloom, as a cover spray in a minimum of 100 gallons of water per acre.

DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation, are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer's option, as full discharge of seller's liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
