CAUTION

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

FOLIAR APPLIED: F-6000 may be applied up to 8 quarts per acre, per application. Apply at least 1 quart per acre in all foliar applications. Use higher rates as spray volume increases. **F-6000** can be piggybacked with all foliar feeds. If sprayed without mixing with other nutrients, dilute in at least 10 gallons of water.

HERBICIDE APPLIED: Apply 1 quart to 2 quarts of **F-6000** per acre. **F-6000** can be mixed with non-selective contact herbicides. Not recommended with pre-emergence herbicides. **DO NOT MIX WITH SELECTIVE HERBICIDES.**

TRANSPLANTING OR CUTTING: Mix ½ to 1 gallon of **F-6000** per 20 gallons of solution.

DEFOLIANT APPLIED: Mix 1 quart to 2 quarts of **F-6000** per acre with all defoliant.

F-6000 is compatible with almost all fertilizers, nutrients, pesticides, fungicides, and defoliant. If unfamiliar with its use, be sure to check with J. R. Simplot Company for compatibility or perform a jar test mixing each product in the same ratios as to be field applied.

GENERAL INFORMATION

F-6000 contains humic acid. The purpose of humic acids is to enhance the uptake of nutrients. **F-6000** can be applied to all crops including: vegetable crops, row crops, field crops, feed crops, trees, vines, ornamentals, lawns, gardens, and landscaping.

F-6000 can be mixed with almost all liquid fertilizers and liquid nutrients. **F-6000** can also be applied with non-selective contact herbicides and systemic insecticides. **F-6000** can be mixed with most fungicides and defoliant.

F-6000 can be applied with all transplant solutions, dips and all watering solutions. It can be applied to all soil types and pH ranges.

F-6000 can be added to all foliar sprays.

Soil applied fertilizers and nutrients are best applied with Quantum-H rather than **F-6000**.
