

Brandt Parco-Start 8-31-4

Amino Acid Based Turf Starter with Plant Hormones and Vitamins

PARCO-START 8-31-4 is a high Phosphorus solution, balanced with the perfect amounts of Nitrogen and Potassium.

PARCO-START 8-31-4 is formulated containing natural plant hormone precursors, natural plant amino acids, plant vitamins and anti-stress substances. This combination promotes early growth and healthy root systems. Ideal for newly seeded areas as well as existing turf requiring grow in support nutrition. Made from the highest quality nutrient sources, PARCO-START 8-31-4 provides a quality source of quickly available Nitrogen promoting limited top growth while the Phosphorous and Potassium are readily available to ensure strong rooting.

PARCO-START 8-31-4 is ideal for foliar spray application, hydroseeding or as a soil drench. It is non clogging and non abrasive to equipment. It is compatible with most fungicides, herbicides, and insecticides, however compatibility tests are recommended.

APPLICATION RECOMMENDATIONS

Greens and Tees (Newly Seeded or Grow-In)

General Turf Application: Dilute 1 quart per 10,000 square feet in at least 10 gallons of water. Repeat as needed.

To Deliver Phosphorous: Dilute 1 pint (16 ounces) of PARCO-START 8-31-4 in sufficient water to deliver approx. 1/2 lb. of Phosphorous per 1,000 sq. ft. Repeat twice per month or as necessary to enhance rooting.

Hydroseeding Application

PARCO-START 8-31-4 may be tank mixed with seed, and slurry mixed for ease of application. Mix at above rates for appropriate use.
