

# N-Boost®

Bio-Yield Enhancer

## General Information

N-BOOST is a natural enhancer that boosts nutrient utilization from both liquid and solid fertilizer programs. N-BOOST enhances chloroplast activity which allows the crop to efficiently use available resources to improve yield.

## Foliar Application

**Root and Tuber Vegetables** (including but not limited to potatoes, sugar beet, sweet potatoes, carrots, etc.): Apply 2-3 qts/A at tuber initiation and repeat three weeks later.

**Leafy Vegetables** (including but not limited to spinach, lettuce, *Brassica*): Apply 1-2 qts/A two weeks prior to first cut.

**Bulb Vegetables** (including but not limited to onions, garlic, leeks): Apply 1-2 qts/A at first true leaf and repeat four weeks later.

**Cucurbit Vegetables** (including but not limited to melons, squash, cucumbers): Apply 1-2 qts/A during vegetative growth and repeat as needed.

**Fruiting Vegetables** (including but not limited to tomatoes, peppers) and **Legume Vegetables** (including but not limited to peas, green beans, sweet peas): Apply 2-3 qts/A at first flowering and repeat four weeks later.

**Cereal Grains** (including but not limited to corn, rice, wheat): Apply 2-3 qts/A between V4 and V9.

**Cotton**: Apply 2-3 qts/A at first flowering and repeat two weeks later.

**Pasture** (grass and legumes): Apply 1½-2 quarts/acre three to five days after each cutting and/or grazing.

**Sugarcane**: Apply 1½-2 quarts/acre at 20 inch cane height and repeat thirty days later.

## GUARANTEED ANALYSIS NON-PLANT FOOD INGREDIENTS

15% Yeast extract  
85% Bacterial fermentation extracts

Includes >3x10<sup>5</sup>% Adenine compounds  
This microbiologically derived product contains no live organisms and is not a viable culture.

## Mixing and Handling Instructions

Put 1/3 to 2/3 of total desired water volume in tank. Add adjuvant(s) and pesticide(s) if desired and agitate until thoroughly mixed. Add desired amount of N-BOOST and agitate until thoroughly mixed. Fill tank with remainder of desired water. A jar test is a good field practice for evaluating compatibility of multiple chemical mixtures.

**CAUTION:** Keep out of reach of children. Harmful if swallowed. Avoid contact with skin, eyes and clothing. Causes eye irritation. Avoid breathing spray mist. Wash hands thoroughly after using. In case of eye contact, flush eyes with water for at least 10 minutes and get medical attention.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Store in original container only in a cool, dry, locked area out of reach of children. Protect from excessive heat or cold. Once opened, product must be used within 3 months. Triple rinse (or equivalent) and dispose of container in accordance with local, state and federal regulations.

**CONDITIONS OF SALE: Acceptance and use of this product will be deemed to be acceptance of these conditions of sale.** Results from the use of this product may be affected by factors beyond Donaghys control. These factors include but are not limited to mixing, use, time of application, weather, soil moisture, crop, crop life cycle and even though the product is fit for its stated purpose and label directions have been followed. Donaghys will replace any defective product free of charge, but to the extent permitted by law all other warranties representation conditions or obligations whether imposed or implied by law or otherwise, and the manufacturer's and supplier's liability for any indirect special or consequential losses or damages of any kind arising out of the supply and/or use of this product, including where it arises out of negligence, are expressly excluded. **In any event, to the extent permitted by law, the manufacturer's and supplier's liability arising out of the supply and use of this product is limited to the amount paid for the specific product.**
