Surfoil

A SPRAY ADJUVANT CONTAINING MINERAL OIL

To improve contact activity by increasing penetration and spray coverage.

ACTIVE INGREDIENT:

Mineral Oil*:..... 83.0%

Active Surfactant: 16.0%

TOTAL ACTIVE INGREDIENTS:..... 99.0%

INERT:..... 1.0%

*Minimum of 95% Unsulfonated Residue of Petroleum Distillate

DANGER

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 1 GALLON

PEEL BACK BOOK HERE AND RESEAL AFTER OPENING

Caution: Keep Out Of Reach Of Children

Harmful if swallowed. Avoid contact with skin. Avoid breathing spray mist. Wash hands after using. Do not store near feed or food products. Keep children and domestic animals off treated areas until this material has been washed into the soil.

WARNING! CAUSES EYE IRRITATION

Avoid contact with eyes. In case of contact, flush eyes with water for at least 15 minutes and get medical attention.

ANTIDOTE: If taken internally induce vomiting and call a physician at once.

READ ENTIRE LABEL BEFORE USING THIS PRODUCT: Use of this product in a manner not in accordance with the information on this label may injure or kill humans, domestic animals, wildlife, aquatic life, desirable plants, create excessive and unlawful chemical residues, or produce other undesirable results.

GENERAL INFORMATION

SURFOIL is a blend of special surfactant with phytobland (nonphytotoxic) oil. It is designed for use in weed killing postemergent sprays, fungicides, and insecticides to increase contact activity, aid in penetration, and provide uniform coverage.

NOTE: SURFOIL increases the activity of herbicides and therefore care should be exercised when herbicide sprays containing SURFOIL are applied to new crop varieties or highly inbred crop lines not previously treated with SURFOIL. Care is recommended when sprays are applied under very humid conditions or under circumstances when herbicides tend to be more active. In new uses it is recommended that small test areas be treated before undertaking large scale applications.

DIRECTIONS FOR USE:

PREPARATION AND APPLICATION OF SPRAY EMULSIONS: Fill spray tank half full with water, add the proper amount of herbicide while agitating and then add SURFOIL. Continue to agitate while finishing filling and agitate before and during each application to insure a uniform spray emulsion. Carefully read and follow the directions contained on the label of the herbicide with which SURFOIL is to be used. For local recommendations consult competent agricultural authority.

PRODUCT USE RATES**Herbicides:**

By ground: 1 to 2 pints per acre in 10 to 20 gallons of water.

By air: 1 to 2 pints per acre in 5 to 10 gallons of water.

Fungicides:

By ground: 1 pint per acre in 10 to 20 gallons of water.

By air: 1 pint per acre in 10 gallons of water.

Insecticides:

By ground: 4 to 16 ounces per acre in 2 to 5 gallons of water. CDA, Low Volume: 4 to 16 ounces per acre with water for sufficient coverage.

By air: 4 to 16 ounces per acre with water for sufficient coverage.

Read and follow all information on the label of the herbicide with which SURFOIL is used. Keep this container tightly closed and **DO NOT** allow water to be introduced into it.

DO NOT CONTAMINATE WATERS USED FOR DOMESTIC CONSUMPTION OR BY ANIMALS, WILDLIFE AND AQUATIC LIFE, OR WATER FOR IRRIGATION PURPOSES.

STORAGE AND DISPOSAL

STORAGE: Store in original container only. Protect product from freezing. Prevent water from being introduced into the contents of this package. Do not use, spill, or store near heat or open flame.

DISPOSAL: Triple rinse container and pour rinsate into the mixing tank. Do not reuse empty container and dispose of it in accordance with state, local and federal regulations. **DO NOT REUSE EMPTY CONTAINER FOR ANY PURPOSE.**

NOTICE: Use of this material in a manner, or at anytime other than in accordance with the directions may produce plant injury, excessive residues, or other undesirable results. Jimmy Sanders, Inc. makes no express or implied warranties other than specified on the label.
