

### **GUARANTEED ANALYSIS**

**Total Nitrogen(N)-----8.00%**

**8% Ammoniacal Nitrogen**

**Zinc(Zn)-----10.00%**

**Derived from Zinc Chloride, Citric Acid,  
EDTA Acid, and Anhydrous Ammonia**

For Soil Application in Starter Fertilizer  
For Prevention and Correction of Micronutrient Deficiency

This product should be used on the basis of a soil and/or tissue analysis.

Broadcast Application:

Severe Deficiency.....4 qts per acre

Moderate Deficiency.....2 qts per acre

Maintenance.....1 qt per acre

Row Application:

Use at the rate of one quart per acre  
as a supplement to broadcast applications.

**NET CONTENTS: 2.5 GALLONS  
9.85 lbs per Gallon**

**CAUTION:** This material contains zinc and should only be used as recommended.  
It may prove harmful when misused.

### **FOR USE AS A FERTILIZER INGREDIENT:**

This product should be used on the basis of a soil and/or tissue analysis. Ideal fertilizer application rates will vary based on specific crop, field and geographic situations. Consult an argonomist that is familiar with recommendations for your specific situation to determine the proper use rates. Scalped or severely eroded soils are more likely to be deficient in zinc than well managed soils. Zinc deficiencies are more common on sands, sandy loams and organic soils because these soils originally contain low total zinc levels. Zinc availability decreases markedly as the soil pH increases. Zinc deficiencies are usually limited to soils with a pH above 6.5. Blue Tsunami is specifically formulated for use in liquid fertilizer materials which are commonly applied in the row as starter or pop-up fertilizers. It is compatible with most 10-34-0 and/or pesticide combinations. However, before mixing the full volume of tank-mix needed, always conduct a small scale test "jar test" to insure compatibility of the materials. This product contains 1 pound of zinc per gallon.

### **READ LABEL -- FOLLOW DIRECTIONS**

Refer to MSDS for health, safety, and environment information.

#### **IN CASE OF CONTACT:**

**Ingestion:** Give large quantities of water or milk if conscious. Contact physician.

**Eye Contact:** Flush eyes with water for 15 minutes. Contact physician.

**Skin Contact:** Remove contaminated clothing and wash skin with soap and water.

If irritation persists, seek medical attention.

**Inhalation:** Remove to fresh air. Seek medical attention if irritation persists.

**Caution:** Harmful if swallowed. Avoid contact with eyes, skin, and clothing.

Avoid breathing spray mist.

**CAUTION:** Keep Out of the Reach of Children.

Container Disposal: Do not reuse empty containers. Triple rinse (or equivalent), then offer for recycling or disposal by procedures approved by state or local authorities.
