

WATER CONDITIONER, NONIONIC SURFACTANT, DEPOSITION AID

and DEFOAMING AGENT

FOR USE WITH GLYPHOSATE AND OTHER SPRAYS RECOMMENDING THE ADDITION OF AMMONIUM SULFATE, NONIONIC SURFACTANT AND DEPOSITION AID/DRIFT CONTROL

PRINCIPAL FUNCTIONING AGENTS:

Water conditioners, surfactants, drift control agents, and constituents ineffective as a spray adjuvant 100% All ingredients are accepted for use under 40 CFR 180.

FOR AGRICULTURAL AND INDUSTRIAL USE including but not limited to crops, forestry, rights-of-way, turf, ornamentals and fallow

NOT FOR AQUATIC USE

KEEP OUT OF REACH OF CHILDREN WARNING

Harmful if swallowed, inhaled, or absorbed through skin.

Avoid contact with eyes and skin, may cause irritation.

Avoid breathing spray mist.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

PEEL BACK AND RESEAL

SN: 0XXXA-032608

VERACITY is a multi-purpose, low foaming product designed to condition water, spread spray droplets for better coverage and aid in ensuring the deposition of spray droplets on the target. The distinctive combination of properties increases the availability and coverage of theactive ingredient for more consistent performance.

VERACITY complexes with hard water ions such as calcium, magnesium, and iron which may reduce the activity or mixing of many products.

VERACITY contains surfactants to improve the spread of droplets resulting in better coverage of the spray solution on the leaf surface.

VERACITY controls the size of spray droplets, reducing the number of fine droplets, so that more of the spray hits the intended target.

VERACITY may be used as an AMS replacement at the recommended rate.

ENVIRONMENTAL HAZARDS

Do not apply directly over water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash waters or spray waste.

DIRECTIONS FOR USE

READ AND FOLLOW ALL DIRECTIONS FOR USE ON HERBICIDE LABELS.

- 1. Fill spray tank half full of water and begin agitation.
- 2. Add desired rate of VERACITY to water before adding pesticides.
- 3. Add pesticides, as directed by label, while maintaining agitation.

Use **VERACITY** with pesticides that are compatible with moderately acidic pH's. Do not use with tank mixes utilizing fixed copper fungicides. Do not apply this product in such a manner as to directly or through drift, expose workers or other persons.

USE RATES (ground and aerial application): 2 to 6 quarts per 100 gallons Recommended rate for most uses: 3 to 4 quarts per 100 gallons

The best use rate of **VERACITY** will vary based on environmental factors and the tank mix combination. Factors such as dry conditions, extremely hard water and/or higher wind speeds will require the use of higher rates in order to maintain performance. The user, applicator or advisor must have experience with the use of this product in the specific tank mix, or must conduct a jar test to ensure compatibility prior to use.

STORAGE AND DISPOSAL: Store in a cool, dry place. Store in original container. Product will freeze and become solid at extremely low temperatures. Freezing will not harm product but does offer burst potential of the container. If frozen, warm product until completely thawed and shake before using. Keep tightly closed and do not allow other chemicals to be introduced into the container.

Triple rinse (or equivalent) container during mixing and loading and dispose of rinsate into the tank mix. Dispose of packaging and all materials according to all local, state, and federal regulations.

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of West Central Inc. or the seller. All such risks shall be assumed by the buyer. West Central Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. West Central Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall West Central Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. West Central Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of West Central Inc.
