

SS-100

“Spreader-Sticker / Anti-transpirant”

GENERAL INFORMATION:

SS-100 is a 60% active non-foaming, latex based spreader-sticker / anti-transpirant. SS-100 contains a superwetting agent that greatly enhances its spreading ability on “waxy” and “hairy” foliage.

Surface tension reduction to 25 dynes/cm is attained with this superb product. SS-100 is an excellent choice for use with copper and other pesticides that require a tenacious sticking agent to hold them on during periods of intense rainfall or irrigation.

SS-100 is an unsurpassed anti-transpirant that will help plants retain moisture during severe weather.

INGREDIENTS:

Latex, superwetting agents and
Dimethylpolysiloxane.....60%

Exempt from tolerance under EPA 40 CFR 180.1001 (c).

Continued on other side of container:

DIRECTIONS FOR USE:

8-32 ounces of SS-100 per 100 gallons of spray.

Adjust the rate of SS-100 according to the life expectancy of the chemical being applied.

EXAMPLES: Sevin is short-lived, so add 8 ounces of SS-100 per 100 gallons of spray solution. Copper is active as long as it is on the plant, so use the highest rate of SS-100, that is, 32 ounces per 100 gallons of spray solution.

| CHEMICAL LIFE | RATE OF SS-100 |
|----------------------|---------------------------|
| Up to 1 week | 8 ounces per 100 gallons |
| Approx. 2 weeks | 16 ounces per 100 gallons |
| Approx. 3 weeks | 24 ounces per 100 gallons |
| 4 weeks or more | 32 ounces per 100 gallons |

To reduce water transpiration: 1 to 2 gallons per acre

Always follow pesticide manufacturer's recommendations.

CAUTION: CAUSES EYE IRRITATION

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. The risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
