**ANTI-TRANSPIRANT**

**PRINCIPAL FUNCTIONING AGENTS:**

Di-1-p-menthene, polyterpene hydrocarbon, alkylaryl ethoxylate . . . . .	96%
Constituents Ineffective as a spray adjuvant . . . . .	4%
<b>TOTAL . . . . .</b>	<b>100%</b>

WA Reg. No. xxxxx-xxxxx

All ingredients are exempt from tolerance under 40 CFR 180.

## KEEP OUT OF REACH OF CHILDREN WARNING

Harmful if swallowed. If swallowed, do not induce vomiting. Avoid contact with skin, eyes or clothing. Do not take internally. Wear impermeable gloves, eye protection, long-sleeve shirt and pants and shoes and socks. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

### FIRST AID

Call a poison control center or doctor immediately for treatment advice.

Have the product container with you when calling a poison control center or doctor, or going for treatment.

**If Swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

## GENERAL INFORMATION

**SAP vg** is an anti-transpirant agent intended for use with fruits, vegetables and other uses to reduce moisture loss by the plants. Adding a thin coat of **SAP vg** can provide a water impermeable film that reduces water loss from transpiration. Use on fruits and vegetables to improve size, reduce pre-harvest fruit drop, minimize sunburn incidence, and improve color in some varieties.

Application of **SAP vg** can improve the establishment and survival of plants exposed to stressful or adverse environmental conditions. Spray **SAP vg** for full coverage or use as a dip.

**SAP vg** needs to be applied at least one hour during daylight, before an anticipated rainfall. Sunlight is needed for this period of time, for the protective film to set. No additional spreader is needed with **SAP vg**.

## DIRECTIONS FOR USE

Fill the spray tank with 1/2 - 3/4 of the required amount of water and begin agitation. Add the recommended amount of **SAP vg** and add the balance of water. Maintain agitation during mixing and spraying to ensure a uniform emulsion. It is also advisable to pre-mix **SAP vg** with water, before adding to the spray tank.

The applicator/user must have experience with this product or must conduct a phytotoxicity test at the full use rate on a small test patch or on a plant BEFORE starting large scale usage.

## **NOT FOR AQUATIC USE**

## USE RATES

**Fruits:** Apply **SAP vg** at the rate of 1 gallon per acre in enough water for good coverage (100 to 500 gallons per acre). Do not use in a spray tank combination with any pesticide. Make application about 4-6 weeks before harvest.

**Vegetables:** **SAP vg** is applied at 1 gallon per acre in adequate water (approx. 100 gallons per acre) for good coverage.

**Turf:** 1 gallon per 40 or 50 gallons of water. Apply thoroughly until leaves are completely covered.

## STORAGE AND DISPOSAL

Store in a cool, dry place. Product may become thick in cold temperatures. If product is too thick to pour, let stand in warm area until thin enough to pour. DO NOT expose to fire, flame or extreme heat. Keep in original container tightly closed. Do not reuse empty container. Triple rinse storage container when empty and dispose of rinsate properly. Then offer container for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. If incineration is allowed, stay out of smoke. Dispose of in accordance with local, state or federal regulations.

## **Warranty Statement**

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
