

GreenSun® 90 Plus

Soil Application Only

0-0-0

GUARANTEED ANALYSIS

Sulfur (S) 90.0%
Iron (Fe)..... 2.0%

Derived from: elemental sulfur and iron oxide.

PRODUCT DESCRIPTION

GreenSun® 90 Plus is a pastille-shaped, non-staining micronutrient which is formulated specifically for the Western US and Mexico, using new and improved methods as compared to other conventional granular micronutrients. It is superior to other sulfur and iron materials in its handling and blending characteristics, contains very little dust, has a very uniform granule size, and will not stain. **GreenSun® 90 Plus**, when used in conjunction with a balanced fertility program, can provide a season-long source of plant available iron. **GreenSun® 90 Plus** is recommended for all crops, and especially those with high sulfur and iron requirements (alfalfa, barley, corn, potatoes, grain sorghum, edible beans, turf grasses, and wheat). Because of its high sulfur content, **GreenSun® 90 Plus** will also improve soil sulfur levels as well as replenish sulfur loss associated with soluble plant nutrients.

PHYSICAL PROPERTIES

Density 78 lbs/ft³
Granule Size SGN 260
Total Elemental sulfur (S) 0.90 lbs.
Angle of repose 29 degrees

GENERAL APPLICATION AND USE RECOMMENDATIONS

GreenSun® 90 Plus provides agronomic and economic benefits in an easy to use pastille form. It can be blended with other granular or prilled fertilizers or applied alone. Proper timing, rate, and placement is important for desired results and highly dependent on stage of crop growth, soil fertility levels, and environmental conditions. With surface applications, a light incorporation in the soil will assist in even distribution of the micronutrient particles. Application rates vary from 5 to 50 lbs/acre as determined by soil sulfur and iron test levels.

HANDLING AND STORAGE

GreenSun® Turf 90 should be stored and blended (if applicable) in a well-ventilated location to minimize accumulation of dust. Always use stringent dust control procedures to prevent a concentration of flammable dust from reaching a spark or flame source. **GreenSun® Turf 90** should not be blended or stored with strong oxidizing agents. Avoid inhalation of dust if possible. Avoid contact with skin and eyes. Wear proper protective equipment when handling. Dispose of used bags in accordance with local, state, and federal regulations.

KEEP OUT OF REACH OF CHILDREN

WARNING: This product contains substances known to the State of California to cause cancer, birth defects, or other reproductive harm.

WARRANTY: CoreAgri warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

Information about the components of this fertilizer material may be obtained by writing to CoreAgri, LLC, PO Box 1027, Arroyo Grande, CA 93421 and giving the lot number which is found on the bag.
