

MAN-GROW™ DF-30

Dry Flowable Manganese

Man-Grow™ DF-30

DRY-FLOWABLE MANGANESE

GENERAL INFORMATION

Man-Grow™ DF-30 is a 100% water soluble Manganese and Sulfur formulation for use in foliar applications. It is intended for the prevention or correction of Manganese deficiencies in various crops. Use of a non-ionic surfactant is recommended to improve surface coverage and plant uptake.

MIXING DIRECTIONS

When using Man-Grow™ DF-30 add materials in the following sequence:

- 1) water
- 2) ammonium sulfate or other water conditioner
- 3) Man-Grow™ DF-30
- 4) pesticides or other materials

Compatibility: This product is compatible with most pesticides and liquid fertilizers. Use a jar test if the desired combination has not been previously been used.

RECOMMENDED RATES

Application rates as determined by foliar and soil testing in field crops as recommended by an agricultural representative or professional agricultural consultant. Use rates may vary according to area, climate, and crop being treated. Below are suggested rates if no data is available.

For ground equipment: Use at the rate of 3 lbs. per acre in at least 10 gallons of water.

For aerial applications: Use at the rate of 3 lbs per acre in at least 5 gallons of water. A second application may be necessary 2-4 weeks later.

For low Manganese soils: Use at the rate of 2 lbs per acre in three separate applications during the growing season.

Maximum Solubility: Do not exceed 0.5 lbs of Man-Grow™ DF-30 per gallon of water.

HANDLING AND STORAGE

Store this product in a dry place. Tightly seal open bag to prevent product hardening.

GUARANTEED ANALYSIS

Manganese (Mn).....	30.0%
30% Water Soluble Manganese (Mn)	
Sulfur (S) combined	15.0%

Derived from: Manganese Sulfate Monohydrate

KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. Avoid contact with eyes, skin, and clothing. Avoid breathing spray mist. Refer to MSDS for health, safety and environmental information. If Ingested: Give large amounts of water or milk, if conscious. Contact a physician immediately. Eye Contact: Flush eyes with clean water for 15 minutes. Seek medical attention immediately. Skin Contact: Remove contaminated clothing and wash skin with soap and water. Seek medical attention if irritation develops or persists. If Inhaled: Move to fresh air and seek medical attention if irritation develops or persists. For additional information call **INFOTRAC 800-535-5053**
