

CITRUS POLY=PLEX

4% Manganese 4% Zinc .5% Iron

Citrus Poly=Plex is a unique formulation of micronutrients most required by citrus in a readily soluble form.

Included in the formula are concentrated yeast extracts from *Saccharomyces cerevisiae* that are rich in protein, peptides, free amino acids, nitrogen, trace minerals, B-group vitamins and other growth promoting substances in a water soluble form readily absorbed by the leaf.

The components in yeast extract are known to trigger the plant's own natural self defense by releasing a cascade of phytochemicals within the plant that boosts it's self defense against a multitude of stress conditions.

Humic acids in this product may increase the uptake of micronutrients.

Directions for Use

Mature Trees: Use 2 to 3 quarts of Citrus Poly=Plex per acre in sufficient amount of water to insure thorough coverage.

Immature Trees: Use 2 quarts of Citrus Poly=Plex per acre in sufficient amount of water to insure thorough coverage

Aerial Application: Use 2 quarts of Citrus Poly=Plex in a minimum of 15 gallons of water per acre.

Guaranteed Analysis

Iron (Fe).....	0.5%
0.15 % Soluble Iron (Fe)	
0.35% Chelated Iron (Fe)	
Manganese (Mn).....	4.0%
4.0% Chelated Manganese (Mn)	
Zinc (Zn).....	4.0%
4.0% Chelated Zinc (Zn)	
Derived from: Iron sulfate, Manganese sulfate, Zinc sulfate.	
Chelated with amino acids.	F-1251
NON-PLANT FOOD INGREDIENTS:	
Yeast Extract.....	0.50%
Humic Acids.....	2.00%

CAUTION

**KEEP OUT OF THE
REACH OF CHILDREN
ANTIDOTE**

Ingestion: Induce vomiting followed by bicarbonate of soda.

Eyes: Rinse with copious amounts of water

Skin: Wash with soap & water. Remove contaminated clothing.
