GENERAL RECOMMENDATIONS

DKP 45 can be applied to tree crops, field and row crops, vegetables, ornamentals, turf and greenhouse crops.

Soil Applications:

Starter Fertilizer: Apply DKP 45 at 1 to 4 gallons per acre at least 2 inches below and 2 inches to the side of seeds.

Pop-Up Fertilizer: Apply 1 to 4 quarts per acre by itself or with other liquid Pop-Up fertilizers.

Sidedress: Apply DKP 45 at 2 to 30 gallons per acre depending on crop requirements and soil conditions, as a source of phosphorus and potassium. It can be surface banded or knife injected.

Foliar Applications:

Tree Crops: Apply 2-6 quarts of DKP 45 per acre in a minimum of 100 gallons of water.

Apples, Nectarines, Peaches, and Plums: Apply 2-4 times between three-quarter leaf and fruit midsize stages each season.

Apricots and Cherries: Apply 2-4 times between pink bud and fruit midsize stages each season.

Avocados: Apply at pre-bloom, early fruit set and fruit sizing periods.

Citrus: Apply 2-4 times per year.

Walnuts, Almonds, Pecans, and Pistachios: Apply 2-4 times between first full leaf and 3-4 weeks prior to hull split each season.

Field and Row Crops:

Air Application: Apply 2-4 quarts of DKP 45 per acre in 3-10 gallons of water.

Ground Application: Apply 2-6 quarts of DKP 45 per acre in 10-30 gallons of water.

Alfalfa & Clover: Apply after each cutting.

Corn and Sweet Corn: Apply at 8-12 inches high and repeat the application in 2-4 weeks.

Cotton: Apply 3-4 times each season between early square and peak boll set.

Grapes: Apply 3-4 times each season.

Milo and Sorghum: Apply 3-4 times each season at 2-4 week intervals.

Peanuts: Apply 2-3 times each season between first trifoliate leaf and pot fill stages.

Potatoes: Apply 3-4 times each season, starting at tuber initiation.

Soybeans: Apply 2-3 times each season between first full leaf and pot fill stages.

Strawberry and Raspberries: Apply 2-3 times each season.

Sugar beets: Apply when plants are 6-8 inches in height and repeat the application in 2-4 weeks.

Wheat, Barley, Oats and Rice: Apply at early tillering and early boot stages.

Vegetable Crops:

Air Application: Apply 1-3 quarts of DKP 45.

Beets, Carrots, Sweet Potatoes: Apply 2-4 times each season.

Celery: Apply 2-3 times each season.

Cole Crops (Cabbage, Cauliflower, Broccoli,

Brussel Sprouts): Apply 2-3 times each season.

Cucumber: Apply 3-4 times each season.

Leafy Vegetables:

Apply 2-3 times each season.

Lettuces: Apply 2-3 times each season.

Melons, Squash:

Apply 2-3 times each season.

Onions, Garlic: Apply 2-4 times each season.

Peppers: Apply 3-4 times each season.

Tomatoes: Apply in 2-3 week intervals, starting at pre-bloom.

Ornamentals:

Conifers:

Apply 1-3 quarts per acre for each application.

Flower Seed Crops: Apply 1-2 quarts per acre, 1-3 times each season.

Turf, Sod: Apply 1-4 quarts per acre every 3-4 weeks.

Fertigation:

Sprinkler, Flood and Furrow Irrigation Apply 2-10 gallons of DKP 45 per acre per application.

Drip Irrigation: Apply 2-4 gallons per acre per application 2-3 times during the growing season, after plants are well established.

Young Trees and Vines: Apply 4-12 gallons per acre per application 1-2 times during the season when roots are actively growing. per acre in 3-10 gallons of water.

Ground Application: Apply 2-4 quarts of DKP 45 per acre in 10-30 gallons of water.
