GENERAL INFORMATION

Rhizone is a natural organic product. It contains precursors of plant growth stimulating factors which, upon introduction to natural soils, will be gradually converted to growth stimulating factors by microorganisms in the rhizosphere.

STORAGE: Store in a cool, dry place away from sunlight.

DIRECTIONS OF USE

SEED APPLICATION: Dilute 1 quart of Rhizone with 150-250 gallons of water per acre and apply to the seeds at planting.

TRANSPLANTING: Dilute one part of Rhizone with 300 parts of water and drench base of plants 7 days before transplanting

BARE ROOT PLANTS: Dilute 1 part Rhizone with 300 parts of water and drench base of plants at planting.

GREENHOUSE: Dilute 1 part Rhizone with 300 parts of water and drench base of plants at planting.

FRUIT TREES AND VINES: Apply 1 quart of Rhizone per acre with 150-250 gallons of water around the roots in early Spring. Avoid applications of Rhizone with nitrogen fertilizers. Repeat application every 4 weeks.

Lot No. :

SUB-SURFACE AND DRIP IRRIGATION: Dilute Rhizone with water and then apply through drip irrigation with a rate of 1 quart of Rhizone per acre. Avoid applying Rhizone with nitrogen fertilizers. Repeat application every 4 weeks.

FIELD AND VEGETABLE CROPS:

AT PLANTING: Dilute 1 quart of Rhizone with 150-250 gallons of water per acre and apply to the seeds at planting.

EARLY GROWING STAGE: Apply 1 quart of Rhizone per acre with 150-250 gallons of water as banding at early growing stage. Rhizone should be applied as close to the roots as possible. Avoid application of Rhizone with nitrogen fertilizers.

LIMITED WARRANTY

Manufacturer or seller makes no warranty, whether expressed or implied, concerning the use of this product other than for the purposes indicated on the label. Neither manufacturer nor seller shall be liable for any injury or damage caused by this product due to misuse, mishandling, or any application not specifically described on the label.

Net Contents:

- ☐ 1 Pint (0.47 liter)
- ☐ 1 Gallon (3.78 liters)
- ☐ 2.5 Gallons (9.45 liters)
- ☐ 2 x 2.5 Gallons (18.9 liters)
- ☐ 5 Gallons (18.9 liters)
- ☐ 55 Gallons (207.9 liters)
