

# SYNERGIZER®

## 0-10-20

### GENERAL INFORMATION

**SYNERGIZER 0-10-20** is a liquid food designed for soil and/or foliar applications. It contains a high level of stabilized water soluble potassium. **SYNERGIZER 0-10-20** is compatible with most fertilizer solutions and pesticides. Dilute **SYNERGIZER 0-10-20** with water before mixing with other fertilizers or pesticides.

### GENERAL RECOMMENDATIONS

**SYNERGIZER 0-10-20** can be used for soil or foliar applications. It is recommended for all agricultural and ornamental crops, turf, and other crops. **SYNERGIZER 0-10-20** should be diluted with enough water to cover the entire acreage.

### TREE CROPS

**Apples, Nectarines, Peaches, Pears, and Plums:** 1-3 quarts per acre (2.5-7.5 liters/hectare) per application 2-4 times each season, applying between three-quarter leaf and fruit midsize stages.

**Apricots and Cherries:** 1-3 quarts per acre (2.5-7.5 liters/hectare) per application 2-4 times each season, applying between pink bud and fruit midsize stages.

**Avocados:** 1-3 quarts per acre (2.5-7.5 liters/hectare) per application at pre-bloom, early fruit set and fruit sizing periods.

**Citrus:** 1-4 quarts per acre (2.5-10.0 liters/hectare) per application 2-4 times per year.

**Walnuts, Almonds, Pecans and Pistachios:** 1-3 quarts per acre (2.5-7.5 liters/hectare) per application 2-4 times each season, applying between first full leaf and 3-4 weeks prior to hull split.

### FIELD AND ROW CROPS

**Alfalfa, Sweet Corn, Clover:** 1-3 quarts per acre (2.5-7.5 liters/hectare) after each cutting.

**Corn:** 1-3 quarts per acre (2.5-7.5 liters/hectare) at 8-12 inches (20.3-30.5 cm) height. Repeat the application in 2-4 weeks.

**Cotton:** 1-3 quarts per acre (2.5-7.5 liters/hectare), 3-4 times each season, applying between early square and peak boll set.

**Grapes:** 1-3 quarts per acre (2.5-7.5 liters/hectare), 3-4 times each season.

**Milo, Sorghum:** 1-3 quarts per acre (2.5-7.5 liters/hectare) at 8-12 inches (20.3-30.5 cm) height. Apply 3-4 times each season at 2-4 week intervals.

**Peanuts:** 1-3 quarts per acre (2.5-7.5 liters/hectare), 2-3 times each season, applying between first trifoliate leaf and pod fill stages.

**Potatoes:** 1-3 quarts per acre (2.5-7.5 liters/hectare), 3-4 times each season, starting at tuber initiation.

### GUARANTEED ANALYSIS

Available Phosphoric Acid (P<sub>2</sub>O<sub>5</sub>)...10.0%  
Soluble Potash (K<sub>2</sub>O).....20.0%

Derived from potassium carbonate, and potassium phosphate.

#### Net Contents:

- 1 Gallon (3.78 Liters)
- 2 1/2 Gallons (9.45 Liters)
- 5 Gallons (18.9 Liters)
- 55 Gallons (207.9 Liters)

Weight per gallon: 12.2 lbs. per gallon

Lot No:

**Soybeans:** 1-3 quarts per acre (2.5-7.5 liters/hectare), 2-4 times each season. Apply between first full leaf and early pod fill stages.

**Strawberries, Raspberries:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 2-3 times each season.

**Sugarbeets:** 1-2 quarts per acre (2.5-5.0 liters/hectare) when plants are 6-8 inches in height. Repeat the application in 2-4 weeks.

**Wheat, Barely, Oats and Rice:** 1-2 quarts per acre (2.5-5.0 liters/hectare) at early tillering and early boot stages.

#### VEGETABLES CROPS

**Beans, Peas:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application.

**Beets, Carrots, Sweet Potatoes:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application.

**Celery:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application.

**Cole Crops (Cabbage, Cauliflower, Broccoli, Brussel Sprouts):** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 3-4 times each season.

**Cucumber:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 3-4 times each season.

**Leafy Vegetables:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application.

**Lettuce:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 2-3 times each season.

**Melons, Squash:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 2-3 times each season.

**Onions, Garlic:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 3-4 times each season.

**Peppers:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 3-4 times each season.

**Tomatoes:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 1-3 applications in 3-4 week intervals, starting pre-bloom.

#### ORNAMENTALS

**Conifers:** 1-3 quarts per acre (2.5-7.5 liters/hectare) per application.

**Flower Seed Crops:** 1-2 quarts per acre (2.5-5.0 liters/hectare) per application, 1-3 times each season.

**TURF, SOD:** 1-4 quarts per acre (2.5-10.0 liters/hectare).

**Greens:** 5-8 oz. in a minimum of 5 gallons of water.

**Fairways:** 2-4 oz. in a minimum of 5 gallons of water.
