

CHB 0-0-30

0-0-30

General Information:

CHB 0-0-30 is a concentrated mixture of potassium fertilizer. It is a high pH fertilizer, which is designed as a late season foliar application to specific varieties of potatoes only.

Directions For Use:

Mixing Directions - Be sure spray tank is thoroughly cleaned, fill 1/2 full with clean water, add product and continue filling with agitation. Always add this product to tank before adding pesticides.

Compatibility - **CHB 0-0-30** is recommended to be applied by itself. It is a high pH fertilizer that is not compatible with most other fertilizers.

Applications - **CHB 0-0-30** can be applied by ground equipment or air. USE at least 15-25 gallons/acre of water carrier.

Dilution and Spray Volumes - Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets.

Containers - **Triple Rinse.** Dispose of containers only in a manner approved by local and state authorities.

Guaranteed Analysis:

Soluble Potash (K₂O) 30%

Derived from potassium hydroxide.

Suggested Applications:

THIS PRODUCT WILL CAUSE SEVERE CROP DAMAGE WHEN APPLIED INCORRECTLY or TO THE WRONG CROP. We strongly recommend that this product is used with the advice of a qualified crop nutrient consultant.

RATES: Apply CHB 0-0-30 at 2 to 8 quarts per acre as a predetermined % solution foliar. Final application rate should only be determined by spraying a small plot with a hand sprayer first!

Mix desired %-solution (5-12%), spray plot and wait 1-2 days. Take the rate with the desired amount of foliar effect, decrease by 0.5%. Use this rate for the whole field

The product is usually applied at 5-8% solution (5-8 gallons per hundred gallons). It is recommended to use at least 20 gallons per acre.

CAUTION
KEEP OUT OF REACH OF CHILDREN
Harmful if Swallowed

Precautionary Statements:

Harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. In case of contact, immediately flush eyes and/or wash skin with plenty of fresh water for at least 15 minutes.

Do not contaminate feed or food items.

Use caution in application to assure coverage on intended treatment areas only.
