

Micro-Feast™

Micronutrients & Microbe Enhancer

MICRO-FEAST™ is a unique product like no other! It is a fertilizer and fosters helpful micro-organism growth when used in the soil. It feeds and builds micro-flora to help make nutrients more available to the plant.

MICRO-FEAST™ is specially formulated to stimulate microbial growth in the soil and enhance soil fertility. The Nitrogen, Phosphorus, Potassium, Iron, Manganese and Zinc are in proper chelated and complexed forms for better utilization for plant and root health.

Other Benefits of MICRO-FEAST™

- Contains plant metabolites, carbohydrates and enzyme precursors that are combined with organic and amino acids together with essential mineral nutrients.
- Provides available nutrients for foliar absorption and a healthy soil rich in a balanced micro-flora.
- Provides a fully degradable energy source for use in the plant.
- Compatible with most fertilizers, herbicides and pesticides available on the market today, however a jar test is recommended.
