Crabgrass Preventer with EVADE™ .375% Plus

For selective preemergence control of grass and broadleaf weeds in:
- Established turf grasses (excluding golf course putting greens) and lawns
- Landscape ornamentals (including established perennials & wildflower plantings)
- Covers up to 16,390 square feet

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

- Avoid breathing dust. Wash thoroughly with soap and water after handling.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.
- Wash thoroughly with soap and water after handling.
- Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling.
- Avoid contact with skin, eyes, or clothing. Avoid breathing dust.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**GENERAL APPLICATION GUIDELINES:**

<td>1.00</td>
</tr>
</tbody>
</table>

**FIRST AID**

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If Inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

If swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have a person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**ENVIRONMENTAL HAZARDS**

This product has low solubility in water. At the limits of solubility, this product is not toxic to fish. However, at concentrations above the level of water solubility it may be toxic to fish. Do not apply directly to water, to areas where water is present or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in adjacent sites. Do not contaminate water when disposing of equipment washwaters.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Offer for recycling if approved by state and local ordinances.

**APPLICATION DIRECTIONS**

Apply uniformly with suitable calibrated application equipment.

**ACTIVE INGREDIENT:**

Pyrimethanil (N2,N3-di-p-2,4-dintro-6-(trifluoromethyl)-m-phenylenediamine) 0.375%.

**INERT INGREDIENTS:**

- Carboxymethylcellulose
- Maltodextrin
- Magnesium stearate
- Paper pulp

**TOTAL:** 100.000%

**GUARANTEED ANALYSIS:**

- Active Ingredient: Crabgrass Preventer with EVADE

**DERIVED FROM:**

- Polymer Coated Sulfur Coated Urea
- Urea
- Muriate of Potash

**CRABGRASS PREVENTER**

- Crabgrass Preventer with EVADE

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

- Causes moderate eye injury (irritation). Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact while handling the material may cause allergic reactions in some individuals.

**APPLICATION DIRECTIONS**

Apply uniformly with suitable, calibrated application equipment.

**CAUTION:** Contains XCU Polymer Coated Sulfur Coated Urea, a trademark of Agronomic Advanced Technologies.
Creeping Bentgrass 175 0.65

1 These are the maximum rates per calendar year by species limitations.

2 May be used on newly sprigged or plugged Bermudagrass at rates not to exceed 139 lb/acre. Newly sprigged or plugged Bermudagrass stolon rooting may be temporarily retarded. Suppression only of foxtail, Goosegrass, and Reseeding Bermudagrass due to reduced product rates used in spraying situations.

3 Do not apply more than 400 lb of this product per calendar year.

4 Use higher rates of this product to achieve higher levels of fertility and longer periods of weed control for each turf type, but do not exceed the maximum application rates specified in the Maximum Annual Rates Table.

Weeds Controlled

When used in accordance with this label this product will provide control of the following weeds:

Bermudagrass
Bluegrass, Annual (Poa annua)
Carpentertweed
Creeping Bentgrass
Creeping Red Fescue
Cupgrass, Woolly
Foxtails, Annual
Goosegrass

1 In many areas a single application of 175 to 400 lb/acre of this product will control grasses. However, under heavy goosegrass pressure and/or an extended growing season, most effective weed control may be obtained by making an initial application of 175 to 267 lb/acre followed after 40 to 60 days by a second application at doses that would not exceed those given in the Maximum Annual Rate Table. Do not exceed the maximum rate for grass species listed in the Maximum Annual Rate Table.

Applications for this weed should be made in late summer, fall or winter prior to germination.

5 Suppression only.

6 Sequential applications may be made so long as the total amount of product applied does not exceed the maximum annual application rates recommended for each turf species. All applications must be made prior to germination of the weed seeds.

WHEN TO APPLY AFTER OVERSEEDING TURF

Do not apply to overseeded turf within 60 days after seeding or until after the second mowing, whichever comes first. Best weed control may be obtained when the product is applied before seeding secondary roots are in the second inch of soil, not thatch plus soil.

WHEN TO OVERTIDE AFTER APPLICATION

Do not apply to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use when the product is applied to turf stressed by drought, low fertility, or pest damage may result in turf injury. Injury to desirable seedlings is likely if this product is applied before seedling secondary roots are in the second inch of soil, not thatch plus soil.

Itchgrass
Johnsongrass (from seed)
Kochia
Lambquarters, Common
Lovegrass
Panicum (Texas, Fall, Browntop)
Pigweed
Pusley, Florida
Rescuegrass
Shepherd’s Pile
Sprigegrass, Broadleaf
Springleaf
Spruge, Prostrate
Witchgrass

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

BEFORE BUYING OR USING THIS PRODUCT, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

FOLLOWING THE DIRECTIONS FOR USE OF THIS PRODUCT CAREFULLY. IT IS IMPOSSIBLE TO AVOID ALL RISKS INHERENT-

Includes Hawaii

A WARRANTY CONTAINED IN THIS LABEL AND TO THE EXTENT REQUIRED BY APPLICABLE LAW, THE BUYER OR USER OF THIS PRODUCT FOR ANY CON-SEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES, OR DAMAGES IN THE NATURE OF A PENALTY.
