Item# 542

## Potassium Finishing Solution 0-0-24

Information regarding the contents and levels of metals in this product is available on the internet at http://www.aapfco.org/metals.htm.

## Helping Nature Work<sup>sm</sup>

## **Directions for Commercial Use:**

Potassium Finishing Solution is intended for foliar use. Apply 2 to 4 quarts per acre with sufficient water for thorough coverage. For best results, spray in early morning or late afternoon. Do not apply during the "sunlight" hours when air temperature is above 85°. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product.

Warning: Use caution when tank mixing with acidic products. Start with full tank of water before adding products. Do not mix in concentrated form with acid based products.

Guaranteed Analysis: Soluble Potash (K<sub>2</sub>O) 24.0%

**Derived from**Potassium Carbonate

Net Wgt. 28.75 lbs./2.5 gal.

## Warranty

- 1.-The manufacturer guarantees and warrants that the content and the total net weight are as stated within lawful limits.
- 2.-Liability of Agro-K Corporation under this warranty or otherwise shall be limited to refund of the purchase price and such refund is expressly agreed by the buyer to be the exclusive remedy.
