## Roundup Weed & Grass Killer Ready-to-Use Plus

### HOW IT WORKS

Roundup enters plants through foliage and moves systemically to the roots, killing weeds by stopping the production of a substance found in plants. Any product not absorbed by plants breaks down into natural materials without moving in or on the soil to untreated plants. Weeds yellow and wilt within hours with complete kill in 1 to 2 weeks.

**PRODUCT FACTS** Container treats more than 200 weeds

**KILLS WEEDS** KILLS ALL TYPES OF WEEDS & GRASSES

**WHERE TO USE**

- On patios, walkways & driveways
- In flower beds & vegetable gardens
- Around shrubs & trees
- Along fences & foundations
- Other areas of your yard

**IMPORTANT** Do not spray plants or grasses you like - they may die too. Not recommended for spot weed control in lawns since Roundup kills lawn grasses.

**WHEN TO APPLY**

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather (above 60° F).
- Spray when air is calm to prevent drift to desirable plants.
- RAINPROOF™ Protection: Rain or watering within 30 minutes of application will NOT wash away effectiveness.
- All ornamental flowers, trees & shrubs may be planted 1 day after application.

 People and pets may enter treated area after spray has dried.
