

Steric[®] Soil Prep[™]

CONTAINS NON-PLANT FOOD INGREDIENT

Active Ingredient:

19.04% Ammonium Laureth Sulfate

80.76% Inert Ingredient

GENERAL INFORMATION

This product increases water penetration in certain soil aggregates by increasing the rate at which water soaks into the soil. It may reduce irrigation water run-off, which may also help eliminate dry and wet spots in the field.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING. Apply at 4 ounces/acre with each irrigation.

APPLICATION RATES

Spray: Apply with common spraying equipment prior to irrigation in a minimum of 60 gallons of water per acre.

Drip Systems: Apply during the first 25-50% of the total irrigation time. Inject directly into the drip system.

Sprinkler System: Apply during the first 25-50% of each set of the total water run time. Inject into the sprinkler system.

Flood or Border Irrigation: Apply continuously during 100% of the water run time. Meter or drip into the irrigation water at a point of turbulence.

STORAGE AND HANDLING

Store in a cool, dry place. Keep container tightly closed and out of direct sunlight during storage for extended amounts of time. Do not add water or other material to the container. Do not contaminate water, food, or feed by storage or disposal. Store above 32° F.

IRRIGATION STATEMENT

Applications can be made through certain irrigation systems including, but not limited to, low volume systems and typical agricultural sprinkler systems. The specific injection equipment and irrigation system must conform to all federal, state and local regulations pertaining to the fertilization of plants through an irrigation system. Accurate and properly calibrated injection equipment and an irrigation system that is operated at maximum distribution uniformity will help avoid plant injury and/or product ineffectiveness. For best results, with the exception of center pivot and lateral systems, apply this product toward the end of the irrigation set. Allow sufficient time for the product to be flushed completely out of the entire irrigation system prior to turning off the irrigation water. Contact your Certified Crop Advisor for specific recommendations for your area.

PRECAUTIONARY STATEMENT

CAUTION: KEEP OUT OF REACH OF CHILDREN, HARMFUL IF SWALLOWED.

As with all materials, user should exercise precaution to avoid potential phytotoxicity including foliar burning. Precaution is advised if applying this product in combination with other materials, a jar test for compatibility is recommended before tank mixing with other products. The pH of any final spray solution should be checked and an appropriate amount of the solution should be applied to a small area of the intended crop to ensure plant compatibility prior to the planned application. User assumes full responsibility to ensure product, equipment and plant compatibilities. **PERSONAL PROTECTIVE EQUIPMENT RECOMMENDED, AND INTENDED FOR AGRICULTURAL USE. CONSULT MATERIAL SAFETY DATA SHEET FOR FURTHER INFORMATION.** In the event of a spill, clean-up promptly using trained personnel and pre-planned procedures and/or contact CHEMTREC at 1-800-424-9300 for assistance.

CONDITION OF SALE

Seller warrants that this product conforms to its chemical description as stated on the label. The product is reasonably fit for the purpose stated on the label when used in accordance with the label directions and instructions under normal conditions of use. No warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions or under conditions not foreseeable to the seller. Buyer assumes the risk of any such use.
