

General Information:

NUE Fulvic Acids is a concentrated fulvic acid solution derived from leonardite and composted organic matter. These water soluble acids are low molecular weight (LMW) fulvic acids.

Directions for Use:

Mixing Directions - Be sure spray tank is thoroughly cleaned, fill 1/2 full with clean water, add product and continue filling with agitation. Always add this product to tank before adding pesticides.

Compatibility - NUE Fulvic Acid is compatible with most fertilizers and pesticides. Always jar test mixes before mixing large batches.

Applications - NUE Fulvic Acid can be applied by ground and aerial spray equipment, drip or overhead irrigation systems.

Dilution and Spray Volumes - Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets.

CONDITIONS OF SALE

Seller and/or manufacturer warrants only that this product consists of the ingredients specified on this label. No one is hereby authorized to make any warranty and/or guarantee concerning the use of this product. Being that the use, timing, placement, rate, application and other conditions are beyond the control of the seller and/or manufacturer, the seller's and/or manufacturer's liability for handling, storage and use of this product is limited to replacement of product or refund of purchase price.
