

NUE 2-16-16 Omega

2-16-16

General Information

NUE 2-16-16 Omega is a concentrated mixture of nitrogen and ortho phosphate and potassium.

Mixing Directions - Be sure spray tank is thoroughly cleaned, fill 1/2 full of clean water, add product and continue filling with agitation. Always add this product to tank before adding pesticides.

Compatibility - NUE 2-16-16 Omega is recommended to be applied with nitrogen solutions and can be applied with other minerals and foliar fertilizers. When tank mixing with trace minerals, be sure minerals are properly chelated.

Applications - NUE 2-16-16 Omega can be applied by ground equipment, drip or overhead irrigation systems.

Dilution and Spray Volumes - Always use enough water for uniform application and to prevent possible plant tissue damage to the intended crop from concentrated droplets.

Containers - Triple Rinse - Dispose of containers only in a manner approved by local and state authorities.

Guaranteed Analysis

Total Nitrogen (N)	2%
0.5% Ammoniacal Nitrogen	
1.5% Urea Nitrogen	
Available Phosphorus (P ₂ O ₅)	16%
Soluble Potash (K ₂ O)	16%
Derived from Ammonia, Urea, Phosphoric acid and Potassium Hydroxide	

WARNING

KEEP OUT OF REACH OF CHILDREN

Harmful if Swallowed

Precautionary Statements:

Harmful if swallowed, inhaled or absorbed through skin. May cause eye and skin irritation. In case of contact, immediately flush eyes and/or wash skin with plenty of fresh water for at least 15 minutes.

Do not contaminate feed or food items.
