Technical Ingredients  
Soluble Seaweed  
Extract Powder

## NONPLANT FOOD INGREDIENTS

### 1.10% Humic Acids

*Derived from: Leonardite and Ascophyllum nodosum*

#### GENERAL INFORMATION

Pound It!™ Organic is designed to relieve plant stress and aid in uptake of micronutrients. A combination of humic acid and seaweed extracts, Pound It!™ Organic is intended to be a supplement to an adequate and balanced fertility program. Monitor crop nutrient needs and responses with a soil, leaf tissue and irrigation water analysis program.

#### APPLICATION GUIDELINES

This material can be soil applied in transplant solutions, side dressed, banded, or water run through irrigation systems or sprayed as a dilute mixture directly on soils and incorporated with irrigation. Pound It!™ Organic is compatible with many other organic and conventional fertilizers. It is not intended for foliar applications on food crops. Avoid contact with fruit and produce intended for human consumption. It is recommended to flush the irrigation system with clean water for one hour prior to system shut down.

#### COMPATIBILITY

Pound It!™ Organic has an alkaline pH and is compatible with many commonly applied nutrients and crop protection products. Pound It!™ Organic should not be mixed with calcium-based fertilizers or acidic fertilizers. Contact a Source To Source representative for a list of compatible mixes. Jar test for compatibility prior to mixing with any pesticides, fertilizers or fertilizer blends. The pH of any final spray solution should be checked and determined to be appropriate for any tank mixed pesticides. For maximum results, buffer all tank mixes to a final pH of 6.0-7.0. When tank mixing with pesticides requiring specific pH ranges, always follow pesticide label directions. A compatibility jar test is recommended before tank mixing with unfamiliar combinations. For unfamiliar mixes, an appropriate amount of the final mix should be applied to a small area of the intended crop to ensure plant compatibility prior to the planned application. User assumes full responsibility to ensure product, equipment and plant compatibilities.

Since many pesticide products can be neutralized by alkaline pH, it is highly recommended not to tank mix directly with humic acids. Consult pesticide representative before using on a large scale.

#### CAUTION: KEEP OUT OF REACH OF CHILDREN.

Harmful if swallowed. May cause eye and skin irritation.

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. Buyer shall assume all risks of use including, but not limited to crop injury, ineffectiveness or other unintended consequences as may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of the seller. In no case shall Source to Source be liable for consequential, special or indirect damages resulting from the use or handling of this product. *Information regarding the contents and levels of metals in this product is available on the internet at <http://agr.wa.gov>. or call your Source to Source Representative at 866-727-4572.*

Always refer to the label on the product before use.

#### SOURCE TO SOURCE SUGGESTED RATES AND TIMINGS

##### Trees & Vines:

**Soil:** Apply 2 gallons per acre. Repeat in 14-21 days as needed.

##### Vegetables & Row Crops:

**Soil:** Apply 1-3 gallons per acre. Repeat in 7-10 days, as needed.

#### PRECAUTIONS

Not intended for foliar applications on food crops. Avoid contact with fruit and produce intended for human consumption.

#### SPECIAL TIPS

It is recommended to shake, stir or agitate containers or tanks prior to use.

#### STORAGE/SHELF LIFE/DISPOSAL

Store in original containers at temperatures above freezing. If Pound It!™ Organic is mixed with other products or diluted with water the shelf life is limited by likely bacterial fermentation. Use all blends or diluted mixes within 48 hours. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.
