

Phosphorous Acid

0-60-0

Guaranteed Analysis

Total Phosphoric Acid (P₂O₅).....60.0%

Derived From: Phosphorous Acid

GENERAL INFORMATION

Phosphorous acid products are for use as a supplemental fertilizer treatment. Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or will be used directly by plants, as phosphite ions.

As a soil application to annual crops, a lesser response from the initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or root zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5.

STORAGE/SHELF LIFE/DISPOSAL

Store in original containers at temperatures above freezing. Dispose waste at approved disposal facility. To dispose of containers, triple rinse and dispose according to local and state regulations.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause eye and skin irritation.

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. Buyer shall assume all risks of use including, but not limited to crop injury, ineffectiveness or other unintended consequences as may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of the seller. In no case shall Source to Source be liable for consequential, special or indirect damages resulting from the use or handling of this product.

Information regarding the contents and levels of metals in this product is available by calling your Source To Source Representative at 866-727-4572.

Always refer to the label on the product before use.
