KF-2000

2-1-3

A quality formulation of seaweed extracts, plant oils, proteins, vitamins and nutrients.

GUARANTEED ANALYSIS: Total Nitrogen (N) _____ 2%
Available Phosphoric Acid (P_2O_5) _____ 1%
Soluble Potash (K_2O) _____ 3%

DERIVED FROM: Plant & Seaweed Extracts,
Low Biuret Urea Nitrogen, Food Grade Phosphoric
Acid & Potassium Carbonate.

CAUTION: KEEP OUT OF REACH OF CHILDREN

NET VOLUME 2.5 GALLONS (9.5 L)

KF-200

UREA SOLUBLE NUTRIENT SPRAY TO PREVENT & CORRECT NITROGEN, PHOSPHORUS, & POTASSIUM DEFICIENCIES

SUGGESTED USES FIELD CROPS

- Artichokes
- Blackberries
- Boysenberries
- Broccoli
- Brussel Sprouts
- Cabbage
- Carrots
- Cauliflower
- Celery
- Corn
- Cotton
- Eggplant
- Garlic
- Grain Crops
- Lettuce
- Melons
- Onions
- Peas & Beans
- Peppers
- Potatoes
- Raspberries
- Spinach
- Squash
- Strawberries
- Sugar Beets
- Tomatoes
- Watermelon

8 to 16 oz. per acre, starting with emergence & continuing every 10 days until 15 days prior to harvest, applied to soil or as a foliar spray diluted in 50 gals of water per acre. 8 to 16 oz. per acre in soil after harvest is completed.

PERENNIAL CROPS & OTHER APPLICATIONS

Apples	Kiwi
Avocados	Nut trees
Citrus	Other trees
Coffee	Pomme fruits
Deciduous fruit	Turf & golf grasses
Grapes	Vineyards

8 to 16 oz. per acre in soil; or 8 to 16 oz. diluted in 50 gals. of water as a foliar, or both soil & foliar. Applications may be made from bud break until 15 days prior to harvest. 8 to 16 oz. per acre in soil post harvest is recommended.

PRODUCT INFORMATION

KF-200 liquid fertilizer was formulated to provide a fast method to boost plants during critical or high growth periods & to provide correction for nitrogen, phosphorus & potassium deficiencies.

KF-200 promotes seed & root development as well as a strong cell structure, when used as a supplement to a soil fertilizer program. Nitrogen, phosphorus & potassium are needed for healthy seed development, root structure & cell structure, especially in soils where the nitrogen has been depleted in sufficient quantities to cause reduced yield or stunted plants. KF-200 helps to insure against nitrogen, phosphorus & potassium deficiencies, by providing essential nitrogen to stimulate early root development & speed up crop growth.

KF-200 is beneficial in combination with plant food & is non-phytotoxic when used as directed. It is absorbed through the leafy tissue of the plant & can be translocated within the plant. KF-200 is compatible with most elements. It is designed for use as a supplement to a well balanced fertilizer program.
