Keep out of reach of children
CAUTION
See back for additional precautionary statements

NET CONTENTS
1 PINT (473 ml)
09 60 5070 - 08/01

USE PRECAUTIONS

For foliage application the spray tank must be free of any sulfur residue before using this material. Do not combine sulfur sprays with this material on foliage during spring and summer months and do not follow a previous application of sulfur or apply sulfur following an application of this material until sufficient time has elapsed for safety (at least 30 days). If in doubt, spray a portion of one tree previously treated with sulfur using 2 1/2 Tbsp. oil to 1 gallon of water (1 quart of oil to 25 gallons of water). If sufficient time has not elapsed, burn will show in several days.

Do not use oil spray when temperatures are above 90 degrees F. When temperatures drop below 32 degrees F during night, do not spray tree and vine crops until daytime temperatures have warmed to a point above 35 degrees F and crops are free from moisture due to melting frost or heavy dew.

Do not use on foliage closer than 60 days after or 90 days before using captan or phaltan products. Do not use in combination with carbaryl. Application to trees weakened by disease, drought, drying winds, or high nitrogen applications may result in oil injury.

Minimum Unsulfonated Residue 92%

Petroleum Oils Classification
– unclassified

A 70 second viscosity type oil

STORAGE AND DISPOSAL

Store this product in its original container and keep out of reach of children and domestic animals. *If empty:* Do not reuse this container. Place in trash or offer for recycling if available. *If partly filled:* Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Follow directions carefully. Timing and method of application, weather or crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

Superior *SPRAY OIL* Type

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For household use only. Not for indoor use. SHAKE WELL BEFORE USING.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID

Have product container or label with you when calling a poison control center or doctor, or going for treatment. *If swallowed:* Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to a person. Do not give anything to an unconscious person. *If in eyes:* Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. *If on skin:* Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. *If inhaled:* Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water when disposing of equipment washwaters. Apply this product only as specified on this label.
