973 GRAMS PER LITER @ 20° C

PRODUCT INFORMATION

GENERAL INFORMATION

HUMIPLUS 8% FULVIC ACID is comprised of a long chain of organic carboxyl and polyhydroxide acids.

This organic complex molecule is very active with many open rings giving it a very large capacity to hold and exchange nutritive cations and anions.

The effectiveness of this type of organic additive to fertilizer will (1) enhance cell wall permeability through the root and leaf system. (2) Greatly increase the effectiveness of cation transfer in the soil by increasing negatively charged colloidal particles capable of holding and exchanging cations.

HUMIPLUS

8% FULVIC ACID

GUARANTEED ANALYSIS

Fulvic Acid 8.00%
Derived From Leonardite
