

TREATS AND FERTILIZES **5,000** SQUARE FEET

# WINTERIZER™

WITH  
**PLUS 2® Weed Control**

## FALL WEED AND FEED

- Builds a thicker, sturdier weed-free lawn this fall. Better greenup next spring
- Clears out clover and more than 50 other broadleaf weeds and helps prepare your lawn for winter
- Apply as last feeding in fall. For best results, apply a Turf Builder® product four times a year (see back for details)

# For best results, apply Scotts Annual Lawn Care Program.™

- Start the program at any time.
- Allow 2 months between applications.

## The Scotts Advantage®: All-in-One Particles®\*

Unlike other weed & feeds, every particle of Winterizer™ With Plus 2® contains: Scotts patented timed-release nitrogen, phosphorus, potassium and weed control. Scotts provides consistent feeding and weed control to every square inch of turf for a thick, green lawn. Guaranteed!

\* All-in-One = nitrogen, phosphorus, potassium and the weed control ingredient contained in every particle.

Scotts Winterizer With Plus 2

Ordinary Mixed Weed & Feeds

Winterizer With Plus 2 particles deliver the same ratio of nitrogen, phosphorus, potassium and weed control to every square inch of turf for even, consistent feeding plus better weed control.

Granules contain different nutrients. Nutrient and weed control granules of different sizes and shapes can separate during application resulting in uneven, inconsistent feeding and weeding.

### KEY PRODUCT FACTS

#### How and when to apply

Winterizer With Plus 2 helps you get a thicker, sturdier lawn with increased root development. Apply it as your last feeding of the year to help prepare your lawn for winter and provide better greening next spring.

#### Directions for use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product applies 1.5 pounds of 2,4-D per acre per application. The maximum number of broadcast applications per treatment site is two per year.

#### APPLICATION

- Apply any time weeds are actively growing (when daytime temperatures are consistently above 60°F).
- Apply on a calm day.
- For best results apply to moist grass. To help particles stick to weed leaves, the grass should be thoroughly watered or wet from dew before applying Winterizer With Plus 2.
- On bahia and centipedegrass lawns, wait until after the second mowing of the year, but NOT before mid-March. In the fall, DO NOT treat centipede after the first of October and DO NOT treat bahia after the first of November.
- Do not use this product on flowers, shrubs, fruit, or vegetable plants or on creeping bentgrass, St. Augustinegrass, and dichondra lawns. On bermudagrass, bahiagrass, centipedegrass, zoysiagrass lawns, under certain conditions, some temporary discoloration may result.

#### WATERING OR RAIN

Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product. This product should not be applied if rain is expected within the next 24 hours.

#### IMPORTANT

##### WHAT TO EXPECT

Weed stems and leaves will begin to wilt and curl in a few days, but a month or more may be required for complete control. This product will not prevent weed seeds from producing new plants.

##### EXTREME TEMPERATURES

Avoid applying when temperatures are consistently above 90°F.

##### SEEDING/SODDING/SPRINGING

Wait until the new grass has been mowed at least four times before applying Winterizer With Plus 2.

If you are planning to seed, sod, or spring, you should wait at least one month after you have applied Winterizer With Plus 2.

#### KEEP OUT OF REACH OF CHILDREN

#### CAUTION

##### PRECAUTIONARY STATEMENTS

##### Hazards to Humans and Domestic Animals

CAUTION, causes eye irritation. Avoid contact with eyes, or clothing. Wash thoroughly with soap and water after handling. Harmful if swallowed. Do not contaminate feed or foodstuffs. Do not contaminate water used for irrigation or domestic purposes. Do not graze treated areas. Do not allow feed clippings to livestock.

Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment area until spray has dried or dust has settled.

When using this product, wear long-sleeved shirt, long pants, socks and shoes.

After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water.

##### FIRST AID

☒ If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for

#### Easy To Apply

For use on *Bahiagrass, bermudagrass, bluegrass, centipedegrass, fescues, ryegrass, or zoysiagrass lawns*

aster	chicory	flax	morningglory	scarlet pimpernel
bitter cress	clever	flaxweed	mustard	shadblow
black medick	cinqufoil	ground ivy	penwort	sheepspurge
bristly oxtongue	cutweed	halall	pepperweed	smartweed
buckhorn	curly dock	herb	pigweed	sow thistle
bull thistle	dandelion	horseweed	plantain	stickwort
burdock	dichondra	knockweed (seedling)	prickly lettuce	thymecled
buttonweed	dollarweed	lambquarter	puncturevine	sandwort
carpetweed	English daisy	lippia	purslane	vech
centaurea	eveningprimrose	mallow	pusley, Florida	white clover
		mayweed	ragweed	yellow rocket

#### Spreading Tips

Apply heaver strips. Then apply product in longer direction of lawn.

#### For best results, use a Scotts spreader

Be careful when applying this product near shrubs, flower beds or vegetable gardens as contact with weed control may damage these desirable plants. Scotts spreaders provide excellent controlled application to protect these areas. When using a rotary spreader, take special care near desirable plants.

#### Spreader Settings

Spreader Settings	DIRECTIONS
Scotts AccuGreen® Drop Spreaders	5 3/4" Mow lawn first; apply 2 header strips; apply longest direction of lawn, overlapping wheel marks.
Scotts PrecisionGreen® Drop Spreader	4 3/4" Mow lawn first; apply 2 header strips; apply longest direction of lawn, overlapping wheel marks.
Scotts SpeedyGreen® & Edge Guard® Rotary Spreaders	3 3/4" Make each pass about 5 feet from previous pass to overlap spread width.

#### Additional Spreader Settings

EZ Drop, Republic (#550)	4 1/2"
EZ Broadcast, Republic (#540)	3"
Scotts Broadcast Tractor Spreader	3"

(Non-Scotts spreader settings are approximate. You may need to adjust for proper coverage.)

15-20 minutes. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment.

#### Environmental Hazards:

Do not apply directly to lakes, streams, or ponds. Do not apply when weather conditions favor drift from target areas. Drift or runoff may adversely affect non-target plants. Do not apply directly to water. Do not contaminate water when depositing or cleaning spreaders.

#### Storage and Disposal:

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

☒ PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

☒ CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.
