

BUCKHORN™

Penetrant, Deposition Aid and Drift Control Agent

Principal Functioning Agents:

Modified vegetable oil, phosphatidyl choline, alcohol ethoxylate	92%
Constituents ineffective as a spray adjuvant	8%
TOTAL	100%

All ingredients are exempt from tolerance under 40 CFR 180. WA Reg. No. 46661-Pending

KEEP OUT OF REACH OF CHILDREN CAUTION

Causes moderate eye irritation. Harmful if inhaled. Avoid contact with eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment: Wear long-sleeved shirt and long pants, and shoes plus socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. *Have the product container with you when calling a poison control center or doctor, or going for treatment.*

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

GENERAL INFORMATION

BUCKHORN™ is used as a spray adjuvant to improve deposition of spray droplets. BUCKHORN™ improves spreading and reduces the production of fine droplets that are susceptible to movement from the spray pattern.

The degree of drift hazard varies with the type of pesticide, application conditions and the vegetation near the sprayed area. This product is intended as a management tool to reduce drift and improve deposition. Common sense and sound application technology must be followed when spraying pesticides.

BUCKHORN™ does not produce large spray droplets like some polymer drift products. Internal cohesion of the components help prevent droplets shearing into fines that move off target.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Conditions of Sale and Warranty Limitation: The Directions for Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of West Central Inc. or the seller. All such risks shall be assumed by the buyer. West Central Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the inherent risks referred to above. West Central Inc. makes no other express or implied warranty of fitness or merchantability or any other express or implied warranty. In no case shall West Central Inc. or the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. West Central Inc. and the seller offer this product, and the Buyer and the User accept it, subject to the foregoing Conditions of Sale and Warranty, which may be varied only by agreement in writing signed by a duly authorized representative of West Central Inc.

DIRECTIONS FOR USE

BUCKHORN™ is intended for use with a wide variety of pesticides and sites including but not limited to agricultural crops, aquatic, forestry, industrial, non-crop, right-of-way and turf and ornamental.

BUCKHORN™ may be used in both ground and aerial conventional spray equipment. BUCKHORN™ is suitable for use with in-line injection mixing systems and air assisted nozzles.

APPLICATION RATES

Determine proper rate of product, based on type of application and type of formulation being used. Do not exceed 1% v/v of the spray solution. BUCKHORN™ should be the last additive prior to completely filling the spray tank with water.

Suggested use rates:

Emulsifiable Concentrates:	4 to 6 ounces per acre
Aqueous based formulations:	4 to 6 ounces per acre
Dry Flowable-Wettable Powders:	4 ounces per acre
Liquid Flowables:	4 ounces per acre
Insecticides:	4 ounces per acre

The addition of an adjuvant to some pesticides, pesticide combinations, and/or fertilizers may cause phytotoxicity to the foliage and/or fruit of susceptible crops or non-targeted vegetation. Prior to the addition of the product to a spray tank mix, the user or application advisor must have experience with the combination and/or must have conducted a jar test for compatibility.

Do not mix BUCKHORN™ undiluted in a mixing cone or other container at the same time as any other undiluted product unless a jar test shows the two products to be compatible.
