

AN EFFECTIVE BLEND OF SURFACTANTS FOR USE ON ALL TYPES OF GROWING MEDIA IN NURSERIES, GREENHOUSES, INTERIOR PLANTSCAPES AND SOIL PRODUCTION

ACTIVE INGREDIENT: 100% Alkoxyether surfactants (A Non-Plant Food Ingredient)

Net Contents: 2.5 gallons (9.5 Litres) or 30 gallons

**KEEP OUT OF REACH OF CHILDREN
CAUTION / AVISO
PRECAUTIONARY STATEMENTS**

- Causes irritation to eyes and skin.
- Harmful if swallowed.
- Avoid breathing vapor or mist.
- Do not apply this product in a manner as to directly or through drift, expose workers or other persons.
- Applicators and other handlers of the product must wear: Goggles or a facial splash shield, chemical resistant gloves, such as nitrile rubber or neoprene rubber, coveralls or long pants, long sleeved shirt, shoes and socks.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

For Transportation Emergencies ONLY call Chemtrec 1-800-424-9300. For Health and Safety and Product Use Information call Olympic Horticultural Products 1-800-356-4647.

FIRST AID

IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contacts lenses, if present, after the first 5 minutes, then continue rinsing eye.
IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 to 20 minutes.
IF INHALED	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

In case of emergency call toll free the Olympic Horticultural Products Emergency Telephone No. 1-800-356-4647. Have the product container or label with you when calling a poison control or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

GENERAL INFORMATION

IMPORTANT: Read the entire DIRECTIONS FOR USE, GENERAL INFORMATION AND LIMITATION OF WARRANTY AND CONDITIONS OF SALE before buying or using this product.

Suffusion is an effective blend of surfactants for use on all types of growing media in nurseries, greenhouses and soil production.

Specifically developed to :

- Improve water penetration and retention of optimum moisture levels.
- Give excellent initial wetting and long term re-wetting.
- Assist uniform wetting and drying of the growing media.
- Improve drainage.
- Easily mixed under cold conditions.

DIRECTIONS FOR USE

Suffusion can be: - Incorporated in the growing media
- Applied as a drench
- Used at low rates in the irrigation / fertigation system

Growing Media Preparation – Incorporation

Production Area	Rate / cubic yard	Longevity Requirements / Growing Media Conditions
Containers, field soil Long-term production cycles	6 fl. oz.	Maximum longevity (9 - 12 months) Severely water repellent media.
Pots, hanging baskets Medium term production cycles	4-5 fl. oz.	Medium longevity (3 - 6 months) Moderately water repellent media.
Flats, pots, trays, plugs Short term production cycles	2-3 fl. oz.	Short term activity (2 - 6 weeks) Slightly water repellent media.

Note: There may be variations in longevity under variable growing conditions. Further applications can be made as necessary during production (see below).

Water Volume

Mix **Suffusion** with water before application. Apply in 2 gallons of water per cubic yard of growing media. To achieve an even mix spray as evenly as possible while growing media is blending.

SUFFUSION™ LIQUID

Growing Media In Production – Drench

Production Area	Rate PPM	Longevity Requirements / Growing Media Conditions
Containers, field soil, balled and burlap stock Long-term production cycles	1000 - 1500 13-19 fl. oz. / 100 gals water	Maximum longevity (6 - 12 months) Severely water repellent
Pots, hanging baskets Medium term production cycles	600 - 1000 8 - 13 fl. oz. / 100 gals water	Medium longevity (2 - 6 months) Moderately water repellent
Flats, pots, trays Short term production cycles	300 - 500 4 - 6 fl. oz. / 100 gals water	Short term activity (2 - 6 weeks) Slightly water repellent

Note: There may be variations in longevity under variable growing conditions.

Prepare the appropriate dilution of **Suffusion** by mixing in water and drench onto soil media surface. Further applications can be made as required.

Under dry conditions increasing the water volume assists the movement of **Suffusion** into the growing media.

Growing media in production — Irrigation

Production Schedule	PPM
Daily Feeding	5
Weekly Feeding	50

Use higher rates if media is severely water repellent and water management is of high priority.

Use a test jar to determine physical compatibility.

Additional Usage Areas

Production Schedule	PPM	
Prior to Shipment	500 - 1000	Drench containers, hanging baskets and trays prior to shipment.
Interior Plantscapes	500 - 1000	Drench containers, hanging baskets and planters.
Misting Cuttings	150	Spray freshly stuck cuttings with a very fine mist to the point of run off.
Dying Cut Flowers	150	Incorporate Suffusion in the dye solution.
Continuous Overhead Watering Young Plants Established Plants	10 - 20 20 - 50	For removal of siting water on foliage.

It is advised to pre-spray a small selection of ornamental plants if local use experience is unavailable and observe for 3 to 5 days for sensitivity.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store only in original container. Keep container tightly closed. Keep in a safe and locked storage place. Do not allow water to be introduced into the contents of this container.

Protect from frost and avoid extremes of storage temperatures.

Container Disposal: Triple rinse (or equivalent), empty rinsate into spray tank, then offer for recycling or reconditioning, puncture or dispose of in accordance with federal, state and local laws.

Product disposal: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

LIMITATION OF WARRANTY AND CONDITIONS OF SALE

Read this LIMITATION OF WARRANTY AND CONDITIONS OF SALE before buying or using this product.

Olympic Horticultural Products Company warrants that this product conforms to the chemical description on the label and if used in accordance with directions for use, is fit for the purpose referred to. It is impossible, however, to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials or the manner of use or application, all of which are beyond the control of Olympic Horticultural Products Company. All such risks are expressly assumed by the buyer.

Olympic Horticultural Products Company makes no other warranties of merchantability or fitness for a particular purpose or any other express or implied warranty except as stated above. Under no circumstances shall the manufacturer be held liable for

consequential or indirect damages resulting from the use or handling of this product. Damages caused by this product shall be limited to the purchase price.
