GENERAL INFORMATION

TRACITE® ZINC 10% is a complexed micronutrient designed for foliar or soil application. It is recommended for use as an additive in dry or liquid fertilizers and is compatible with most of the herbicides, insecticides and agricultural chemicals that can be utilized in combination with liquid fertilizers. **TRACITE® ZINC 10%** may not be compatible with some liquid fertilizer formulations. A pre-mix "jar test" is recommended prior to mixing with liquid fertilizer to check compatibility.

The addition of **TRACITE® ZINC 10%** to water will decrease alkaline hydrolysis associated with all organo-phosphate insecticides.

NOTE: **TRACITE® ZINC 10%** cannot be used in liquid fertilizers which contain

Disclaimer: Always refer to the label on the product before using Helena or any other product.

orthophosphates. **DO NOT MIX WITH CATIONIC PESTICIDES.**

RECOMMENDED CROPS

TRACITE® ZINC 10% can be applied to the following crops: Vegetables, fruits, row crops, deciduous fruit and nut trees, citrus trees and commercial turf and ornamentals.

APPLICATION AND MIXING GUIDE

Rates and timing of applications are dependent on local conditions and should always be made as a result of soil and/or plant tissue analysis and in conjunction with your local agricultural authority.

TRACITE® ZINC 10% may be applied by ground or aerial application. Use enough water for thorough uniform coverage of foliage or soil. Thorough coverage is necessary for best results and the addition of a nonionic surfactant such as **INDUCE®** is recommended.

MIXING: In any mixing operation, **TRACITE® ZINC 10%** should be introduced in the following sequence:

1. Water
2. **TRACITE® ZINC 10%**,
3. Other Fertilizers or Pesticides

In mixtures where a compatibility agent is necessary, a product such as **BUFFER P.S.™** is recommended.

Local climatic conditions, infestations and other factors affect the performance of any insecticide, fungicide and nutritional spray. Therefore for specific use, consult your local Helena Chemical Company representative or your local agricultural extension agent.
