GUARANTEED ANALYSIS

Copper
(Cu):..... **1.25%**

1.25% Chelated Magnesium

Manganese
(Mn):..... **0.50%**

0.5% Chelated Magnesium

Zinc
(Zn):..... **4.0%**

4.0% Chelated Zinc

Chelates derived from Carboxylic Acid

CAUTION: Keep Out Of Reach Of Children

WARNING: Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat and/ or skin. Avoid contact with eyes, skin and clothing. IF SWALLOWED: Induce vomiting by sticking finger down throat. Never give anything to an unconscious person. Get medical attention. IF IN EYES: Wash eyes with plenty of clear water for at least 15 minutes. Get medical attention.

General Information:

MICRO- PLUS Liquid Chelates are for soil and foliar application. They are readily available and rapidly absorbed by the root system or foliage.

MICRO- PLUS Liquid Chelates are formulated to be used in Stoller liquid fertilizers (NITRO- PLUS, URA- CAL, FOLIZYME) and Nitrogen solutions. When used with polyphosphate containing fertilizers, dilute with nitrogen solution before addition. Broadcast or row applications are acceptable, although greater efficiency may be expected from row applications. Micronutrient deficiencies usually occur when plants are small; therefore, micronutrients should be added to the fertilizer at or before planting.

Storage Instructions:

MICRO- PLUS Liquid Chelates are chelates with medium corrositivity. It is recommended that **MICRO- PLUS** liquid chelates (10% Zn, 5% Fe, 5% Mn, 5% Cu) be stored in fiberglass, polyethylene or polyolefin. We recommend storing pails a maximum of three pails high. Do not stack pallets.

CONDITIONS OF SALE: 1. Seller warrants that this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one, other than the officers of Seller, is authorized to make any warranty, guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product limited to replacement of product or refund of purchase price.

**Do not exceed one quart per acre for foliar sprays per application.*

APPLICATION INSTRUCTIONS

Soil application of **MICRO- PLUS PAK** can be incorporated in liquid fertilizer or applied separately. **MICRO- PLUS PAK** can be coated on dry blend fertilizer to control dust in the blend plant and supply needed micronutrients. Contact Stoller Enterprises, Inc. to receive the necessary equipment and operating instructions.

Apply the following rated if you do not have a solid or leaf or soil analysis:

Maintenance Application: 1 quart per acre.

Moderate Micronutrient Deficiency: 0.5 to 1 gallon per acre.

Heavy Micronutrient Deficiency: 1 to 2 gallons per acre.
