

# Brandt Mean & Green

## Grass Paint and Divot Sand Colorant

MEAN & GREEN is a true natural color, non-fading, permanent grass colorant. MEAN & GREEN can be applied anytime during the year and will not injure turfgrass. One spray application in the fall assures beautiful green turf all winter - without seeding, fertilizing, watering, or mowing. MEAN & GREEN takes nothing from the soil and is a fast and economical way to instantly restore the natural green color to dormant or discolored turf. MEAN & GREEN blends in beautifully with most types of grasses, since color shade is controlled by the amount applied.

### DIRECTIONS FOR USE

**Divot Sand Colorant:** Load the divot sand mix into a suitable vessel, ideally a port-able concrete mixer or a large wheel barrow. Dilute 1-2 quarts of MEAN & GREEN in 5 gallons of water, then slowly pour or spray over the divot sand while turning and mixing to ensure an even mixture. Stir until the entire mix is green. If too much liquid is present, add more sand until it is dry. Apply the colored divot mix to the divot tracks as usual.

**Grass Paint:** MEAN & GREEN may be applied by spray to all grasses after they have become dormant or turned brown due to frost or cold.

Mow to desired length and rake up all leaves, twigs, grass clippings, etc. If some evergreen grasses are present, mow to desired height, then apply MEAN & GREEN. When the evergreen grasses grow out, raise the cut 1/4 inch above the sprayed dormant grass.

Apply only when the temperature is above 50° or above 40° and rising. Grass may be damp but not be wet. A calm day is preferable to avoid drift of spray mist.

Where MEAN & GREEN is not desired, thoroughly pre-wet any surface (patios, walks, driveways, curbs, etc.) and then rinse these areas immediately after application.

Mix one part MEAN & GREEN with ten parts water and stir thoroughly. Apply by spray, stirring occasionally during use. It is recommended that power spray equipment be used unless the area to be sprayed is quite small. Hold nozzle about twelve inches from grass to avoid drift onto shrubs, walls, etc.

Wash out equipment by flushing with generous amounts of water immediately after use. When possible, spray in a grid pattern so that all angles of the blades of grass are sprayed. Final turf color depends on how many spray applications are made.

**Drying Time:** MEAN & GREEN will withstand traffic or rain approximately one hour after application under normal conditions. More time may be required in cool or humid weather.

**Coverage:** 1 gallon of MEAN & GREEN in approximately 10 gallons of water will cover 2,000-6,000 sq. ft. depending on thickness of grass. When "touching up" non-dormant grass, lighter coverage may be desirable.

### KEEP OUT OF REACH OF CHILDREN CAUTION

SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

**Warranty:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller and buyer assumes the risk of any such use.

Dispose of container in accordance with local, state and federal regulations.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid breathing spray mists or vapors. Wash thoroughly with soap and water after handling. Avoid contamination of feed or foodstuffs.

**PERSONAL PROTECTIVE EQUIPMENT (PPE):** long-sleeved shirt and long pants, socks, shoes, gloves, and protective eyewear.

## FIRST AID

**IF SWALLOWED:** Immediately call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give ANY liquid to the person. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

### ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store in a cool, dry, locked area out of reach of children. Protect from excessive heat. Keep container tightly closed in storage to prevent entry of water.

**PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
