GENERAL INFORMATION

MIX #28 is a fertilizer blend designed to produce vigorous, high quality field grown plants. The ingredients in this multi-nutrient formulation provide a fully charged soil base, bringing the soil nutrients to optimum ornamental levels. Applied prior to planting and thoroughly worked into the top soil profile, this fertilizer blend will provide the plant with nutrients at the optimum levels. Incorporated, the nutrients are placed exactly where the plant needs them, at the roots. The complement of micronutrients are designed to supply the plant's needs for a full six months, when they would be normally reapplied in a top-dress application.
