### DIRECTIONS FOR USE

Apply only as directed. Use Turf Fertilizer 25-5-12 on actively growing turf or whenever a nitrogen feeding with initial green-up, controlled-release nitrogen and/or iron are desired. Apply during the growing season.

### Rates:

LOW: 3.0 lbs./1,000 sq. ft.  
MEDIUM: 4.0 lbs./1,000 sq. ft.

### For all applications:

- DO NOT USE ON GREENS.
- Do not apply with a drop-type spreader.
- Apply to dry foliage.
- Water in after application with a minimum of 0.2 inches to help move particles in the turf canopy and to avoid possible staining
- Do not collect clippings for at least one mowing following application to prevent particle pick-up.

### Cool Season Grasses:

- Apply at LOW or MEDIUM RATE.
- Apply at MEDIUM RATE in spring or fall when deeper greening is desired.
- Exception: Apply at LOW RATE when temperatures are above 80°F.

### Warm Season Grasses:

- Apply at LOW or MEDIUM RATE.
- MEDIUM RATE may be used to help bring grasses out of dormancy.

Recent research has shown that well-maintained turf is an effective environmental buffer that prevents pollutants from entering our natural water bodies. To help protect these natural resources, avoid applying product to sidewalks, driveways, roadways, and other impervious surfaces. Sweep any misplaced granules back onto the area you are treating immediately after application, since storm drains often empty directly to nearby waterways.

Notice: This product contains the micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces. Misapplied product to these surfaces should be removed promptly by sweeping or blowing. Do not wash off with water.

### STORAGE AND USE

Store in a clean, dry place. Reseal opened bag by folding top down and securing. Use only in clean, dry spreaders. Do not leave unused product in spreaders.
