## 0.72G Fungicide on DG Pro

### FEATURES & USE TIPS:

- Systemic fungicide that prevents and controls Dollar Spot, Brown Patch, Summer Patch, rust and other diseases.
- Recommended for control of Necrotic Ring Spot.
- DG PRO™ dispersible carrier - minimizes mower pickup after irrigation.
- Contains propiconazole as the fungicide active ingredient.
- Ideal for use in Snow Mold control programs.
- Convenient, dry-flowable formula.
- Can be applied with rotary or drop spreader.
- Small particle size - ideal for use on golf course greens and low-cut bentgrass fairways.
- Root absorbed for consistent uptake into the turf.

### PRODUCT SPECIFICATIONS:

**Active Ingredient:** 0.72% Propiconazole

*Following is a specimen label that may at some point be revised or otherwise become out of date. It is intended as a guide in providing general information regarding the use of this product. Always read and follow the label on the product container.*

### PRODUCT CODE: **AGCDGPZ3**

Date: 112807  
Supersedes: 082406  
Label: I7

### PRODUCT CHARACTERISTICS:

**Product Type:**  
Granular Fungicide

**Particle Size:**  
SGN: 100

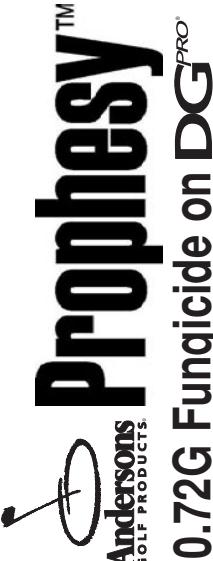

**Net Weight:**  
40 lbs.

**Coverage:**  
16,000 sq. ft. @ 2.5 lb  
1,000 sq. ft. rate

#### Precautionary Statements

##### Hazards to Humans and Domestic Animals

Warning: Harmful if swallowed, absorbed through skin or inhaled. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals. Wear goggles or face shield. Avoid contact with skin. Avoid breathing dust. Do not get into eyes or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove

Causes substantial or temporary eye irritation. If swallowed, do not induce vomiting. If inhaled, remove person from exposure area. If in contact with skin, wash thoroughly with soap and water. If on clothing, wash PPE separately from other laundry. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instruction for wastewaters, use detergent and hot water. Keep and wash PPE separately from other laundry.

#### User Safety Recommendations

##### Users should:

- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Wash hands before eating, drinking, chewing gum, or using the toilet.
- Remove cutting immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

#### Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to infertile areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters.

#### FIRST AID

If in eyes Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If on skin or clothing Call a poison control center or doctor for treatment advice. Have person sip a glass of water, if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

#### Note to Physician:

If ingested: Induce emesis of large stomach. Treat symptomatically.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-751-8851 for emergency medical treatment information.

#### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handles may be in the area during application. For all requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

#### AGRICULTURAL USE REQUIREMENTS

Use this product in accordance with its labeling and with the Workers Protection Standard 40 CFR part 170. This standard contains requirements for training of agricultural workers on farms, forests, nurseries, and greenhouses and handlers of agricultural pesticides. It also contains specific instructions and exceptions pertaining to this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: covers, chemical resistant gloves made from any waterproof material, shoes plus socks, protective eyewear.

#### NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply if this product is used within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR part 170). The Worker Protection Standard applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not enter treatment areas until dust has settled.

#### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in a clean, dry, secure place. Reseal opened bag by taping top down and securing. Pesticide, mixtures, or equivalent rinse water that cannot be chemically reprocessed must be disposed of according to applicable Federal, state or local procedures. Contact your state pesticide or environmental control agency or the hazard waste representative at the nearest EPA Regional Office for guidance, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

#### General Information

This product is a systemic fungicide or can be used on turf grasses for the control:

Dollar spot	Zoysia patch	Spring dead spot
Brown patch	Large patch of Zoysia	
Red thread	Rhizoctonia solani	
Pink patch		
Powdery mildew		
Stripe smut		
Summer patch		
Necrotic ring spot		

Do not apply this product through any type of irrigation system.

#### Turfgrass and Dichondra Disease Control

- Use this product as a preventative disease control program.
- Properly calibrate sprayer to ensure thorough coverage.
- Apply after mowing.
- For control of brown spot, apply to wetmost foliage.
- For control of stripe smut, this product can be watered in after application.
- Under conditions optimum for high disease pressure, use this product in conjunction with turf management practices that promote good plant health and optimum disease control.
- Before use of any fungicide, proper diagnosis of the organism causing the disease is important. Use of diagnostic kits or other means of identification of the disease organism is essential to determine the best control measures.
- Do not apply more than 10 fl. oz./1,000 sq. ft.

Important: Bermudagrass can be sensitive to this product. Do not exceed 5 lbs./1,000 sq. ft. every 30 days on any variety of bermudagrass. In Florida, do not apply this product to bermudagrass if given when temperatures exceed 90°F.

Note: Do not graze animals on treated areas. Do not feed clippings from treated areas to livestock or poultry.

#### Turfgrass Specific Diseases, Rates, and Application Timing

Disease	Lbs. product per 1,000 sq. ft.	Instructions	Application Timing
Dollar spot	2.5	109	14-28 days
Schizomyces homeocarpa			
Brown patch	2.5	109	14-21 days
Rhizoctonia solani			
Powdery mildew	2.5	109	14-28 days
Erysiphe graminis			
Red thread	2.5	109	14-21 days
Lanistella laetiformis			
Pink patch	2.5	109	14-21 days
Limoniodes cosciniphilus			
Stripe smut	2.5	109	Fall or spring
Ustilago striiformis			
Urocystis agropyri			
Melting out	2.5	109	14 days
Botryotinia spp.			
Dichothrix spp.			
Summer patch	2.5	109	14 days
Put Patch	5	218	28 days
Magnaporthe poae			

Begin applications in May or June before disease is present. Uniform conditions in high temperature and high humidity, during a different mode of infection.

Begin applications in May or June before disease is present. Uniform conditions in high temperature and high humidity, during a shorter period.

Apply when conditions are favorable for disease development or when disease is present.

Apply once in the fall after grass becomes dormant or in the early spring before grass starts to grow.

Apply to moderate moisture, apply this product to reduce the severity of leaf spot and healing out caused by Hammonia sp. symptoms/symptoms of pathogens.

Apply this product beginning in April. Use the 5 lb./1,000 sq. ft. rate on a 28 day schedule and the 2.5 lb./1,000 sq. ft. rate on a 14 day schedule.

Apply this product reduce the severity of leaf spot. Make 1-2 fall applications in September and October or when temperatures drop to 65° and 1-2 spring applications in April and May, depending on local recommendations.

Make 1-3 applications. For lone application, begin in September or October. For multiple applications, begin applications in August.
